#### STOP. READ ENTIRE LABEL BEFORE USE.

##### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. *For use around the home only. Do not use on pets.*

People and pets should not be allowed in treated areas until spray has dried.

[SHAKE WELL BEFORE USING]

**[SPRAYER INSTRUCTIONS]****[How to prime and care for your sprayer:]**

1. After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
2. Turn sprayer nozzle one half turn counter-clockwise. Hold sprayer below the level of container and prime by pumping trigger 10 - 15 times until product is dispensed. Adjust nozzle to fine spray or jet stream as needed.
3. To store, turn nozzle to "OFF" position and [store with sprayer above level of liquid in container to prevent leakage] [store sprayer on hook located near bottle handle to prevent leakage].
4. Avoid contamination of food, feedstuffs and domestic water supplies. All food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets, birds and cover fish aquariums before spraying.

**[OPTIONAL DIRECTIONS FOR TRIGGER SPRAYER PRODUCT]****HOW TO USE**

1. Shake well before each use.
2. Adjust nozzle to narrow fan spray, to prevent excessive wetting and waste of product. Spray just enough to cover area to be treated.
3. Avoid contamination of food, feedstuffs and domestic water supplies. All food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Remove pets, birds and cover fish aquariums before spraying.

**INDOORS** (Graphic showing Indoor treatment sites.)

Spray areas where **cockroaches, Palmetto bugs, ants, clover mites, crickets, firebrats, water bugs, silverfish, earwigs, box elder bugs, centipedes, millipedes, pillbugs, sowbugs, scorpions and spiders** are found or normally occur including dark corners of rooms and

closets, cracks and crevices in walls; along and behind baseboards; beneath and behind sinks, stoves, refrigerators and cabinets; around plumbing and other utility installations. **Pillbugs, sowbugs, scorpions and spiders** must be sprayed directly to be killed.

**For ants**, apply to ant trails; around doors and windows and wherever else ants may find entrance.

**For control of carpet beetles**, thoroughly spray along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving, and wherever else insects are seen or suspected.

**For control of fleas and brown dog ticks**, thoroughly spray pet beds, resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where fleas and ticks may be present. Pet bedding should be replaced with clean fresh bedding after treating the area. **Do not treat pets with this product.** To control the source of flea infestations, pets should be treated with a product registered for application to animals.

*Note: Test inconspicuous sample of fabric or rug for staining before use. Check carpet manufacturer's warranty and care and maintenance information before using product on your specific brand of carpeting.*

**OUTDOORS** (Graphic showing Outdoor treatment sites.)

**Bees, wasps, box elder bugs, centipedes, millipedes, pillbugs, sowbugs, scorpions, spiders, flies, and mosquitoes:** For use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever insects may enter the room. Also spray surfaces around light fixtures, on porches, in garages and other places where insects alight [land] or congregate. Repeat as needed. **Pillbugs, sowbugs, scorpions and spiders** must be sprayed directly to be killed.

**Ants, ticks (including ticks which transmit Lyme disease), crickets, fleas and earwigs:** For treatment of

infestation of these insects in areas where there are weeds or bushy non-crop areas, spray infested areas thoroughly. When treating for ticks, give special attention to areas frequented by pets. For ants, thoroughly wet hills and runways. Repeat as needed.

**BARRIER TREATMENT:**

Apply a continuous band of insecticide around building foundation and around windows, doors, utility line entrances, eaves, vents and other areas to reduce the potential for entry by crawling pests. Remove debris and leaf litter from next to the foundation, cut back vegetation and branches that touch the foundation, and move or rake back rocks, deep mulch, or other potential pest harborage next to the foundation. Apply the band up to 3 feet wide around the structure and upwards along the foundation to 3 feet and around windows, doors, and roof overhangs. Apply as a coarse spray to thoroughly and uniformly wet the foundation and/or band area so that the insecticide will reach the soil or thatch level where pests may be active. One gallon will cover 800 sq. ft.

**STORAGE AND DISPOSAL**

Store in cool dry area away from heat or open flame. Securely wrap original container in several layers of newspaper and discard container in trash.

**PRECAUTIONARY STATEMENTS****Hazards to Humans and Domestic Animals**

**CAUTION** - Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

**First Aid**

**If on skin or clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice. Have the product container or label with

you when calling a Poison Control Center or doctor or going for treatment.

#### Environmental Hazards

This product is toxic to fish and other aquatic organisms. Do not apply directly to water.

**NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.**

Plus it keeps killing carpenter ants for up to (four) (16 weeks) six months (24 weeks) . Chemsico Home Insect Control 3L can be sprayed indoors as a spot treatment or outdoors on wooden surfaces. • No Odor • Non-Staining • Use Indoors

& Outdoors]

### STOP. READ ENTIRE LABEL BEFORE USE.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. *For use around the home only.*

People and pets should not be allowed in treated areas until spray has dried.

#### HOW TO USE

1. Remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
2. **SHAKE WELL BEFORE USING.** Turn sprayer nozzle one half turn counter-clockwise. Hold sprayer below the level of container and prime by pumping trigger 10 - 15 times until product is dispensed. Adjust nozzle to a coarse, wet spray.
3. Spray heavily into areas vulnerable to attack [damage]. Apply evenly, avoid dripping and runoff. Reapply as necessary to maintain effectiveness.
4. Treat infested areas and areas likely to be infested, such as wood surfaces, voids and tunnels [channels] in damaged wood, behind veneers, in structural voids (between stud walls and spaces between wood and foundations), along cracks, and along crawl spaces.
5. **Do not spray into electrical outlets or utilities. Do not allow people or pets to contact treated surfaces until spray has dried.**
6. Do not allow the spray to contact food. Thoroughly wash dishes, utensils and counter tops with soap and water if they are sprayed with this product. Remove pets and cover aquariums before spraying.

7. To store, turn nozzle to "OFF" position and [store with sprayer above level of liquid in container to prevent leakage] [store sprayer on hook located near bottle handle to prevent leakage].

#### [OPTIONAL DIRECTIONS FOR TRIGGER SPRAYER PRODUCT]

##### HOW TO USE

1. Shake well before each use.
2. Adjust nozzle to narrow fan spray, to prevent excessive wetting and waste product. Spray just enough to cover area to be treated.
3. Treat infested areas and areas likely to be infested, such as wood surfaces, voids and tunnels [channels] in damaged wood, behind veneers, in structural voids (between stud walls and spaces between wood and foundations), along cracks, and along crawl spaces.
4. **Do not spray into electrical outlets or utilities. Do not allow people or pets to contact treated surfaces until spray has dried.**
5. Do not allow the spray to contact food. Thoroughly wash dishes, utensils and counter tops with soap and water if they are sprayed with this product. Remove pets and cover aquariums before spraying.

#### OPTIONAL CARPENTER ANT LANGUAGE

##### [TIPS FOR TREATING CARPENTER ANTS]

1. The best way to control carpenter ants is to locate their nest and spray it directly. To help locate nest, watch the ants to see where they go. Nests outside [outdoors] can be found in trees, old woodpiles, decks, stumps, fences and adjacent buildings.
2. Common nest sites in the home include under cabinets and dishwashers, around pipes, attics, leaky roofs and doors, wall voids and garage doorjambes.
3. To keep pests from entering your home, spray the outside surfaces of screens, doors, window frames or wherever these insects may enter. ]

[TO HELP PREVENT FUTURE INFESTATIONS  
[DAMAGE]:

- ✓ Treat the outside of your home's foundation and treat your yard [with products registered for these uses [such as . . .]].
- ✓ Trim all trees and bushes [shrubs] so that the branches do not touch the [your] house. Carpenter ants often travel into homes via [from] branches.
- ✓ Fix leaky roofs and plumbing. Carpenter ants need a moist environment to establish a colony and typically nest in softened decayed wood.
- ✓ Seal openings in living trees and remove dead trees and woodpiles - they attract carpenter ants.]

**For Other Indoor and Outdoor Insects  
[Pests]**

**INDOORS**

Cockroaches, Palmetto bugs, ants, clover mites, crickets, firebrats, water bugs, silverfish, earwigs, box elder bugs, centipedes, millipedes, pillbugs, sowbugs, scorpions and spiders: Spray areas where these pests are normally found such as cracks, crevices, dark corners of rooms and closets, along baseboards, around sinks, stoves, refrigerators, cabinets, plumbing and other utility installations. **Pillbugs, sowbugs, scorpions and spiders** must be sprayed directly to be killed.

**For ants**, apply to ant trails, around doors and windows and wherever else ants may find entrance.

**For carpet beetles**, thoroughly spray along baseboards, under carpeting, rugs and furniture, in closets, on shelving, and wherever else insects may be found.

**For fleas and brown dog ticks**, thoroughly spray infested areas such as pet beds and resting areas, nearby cracks, crevices, baseboards, window and door frames and localized areas of floor and floor coverings where these pests may be present. Pet bedding should be

replaced with clean bedding after treating. **Do not treat pets with this product.** To control the source of infestations, treat your pet with a product registered for application to animals.

*Note: Test inconspicuous sample of fabric or rug for staining before use. Check carpet manufacturer's warranty and care and maintenance information before using product on your specific brand of carpeting.*
