

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number
9688-203

Date of Issuance
OCT - 2 2002

Term of Issuance Unconditional

Name of Pesticide Product
Chemsico FAK Formula C

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Chemsico, Division of United Industries Corp.
P.O. Box 142642
St. Louis, MO 63114

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered, reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5). Once a pesticide is registered, however, it is not regarded as permanently acceptable. Registration does not eliminate the need for continual reassessment of pesticides. If the Agency determines that, at any time, additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under FIFRA section (3).

1. Make the following labeling changes:

- a. Revise the EPA Registration Number to read "EPA Reg. No. 9688-203"
- b. Revise the label to include the inert ingredients beneath the ingredient statement as listed on the me-too product "Other ingredients include: Ammonium sulfate granules, dipropylene glycol (to adhere the active ingredient on the granules), organic solvent (less than 0.4%, to dissolve the active ingredient for mixing) and emulsifiers (to keep the liquid ingredients uniformly mixed)."

2. Please submit three (3) copies of your final printed label before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

A stamped copy of the label is enclosed for your records. If you have any questions regarding this action, please contact BeWanda Alexander of my team at (703) 305-7460.

Signature of Approving Official:

BACK PANEL

STOP. READ ENTIRE LABEL BEFORE USING.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. *For outdoor residential use only.*

Do not allow people or pets to contact treated areas.

- Do not apply near fish pools, ponds, streams or lakes.
- Food utensils such as teaspoons or measuring cups should not be used for food purposes after use with insecticides.

[OPTION A] HOW TO USE

TO CONTROL Fire Ants, Red Harvester Ants, Pavement Ants

HOW MUCH TO APPLY

¼ cup per mound

HOW TO APPLY

Sprinkle evenly over mound. Treat new mounds as they appear.

n/c

HOW IT WORKS

Chemsico FAK Formula C begins to work upon contact, although death is not immediate. This is important, as it allows the worker ants enough time to track the product down into the mound. Here it is picked up and spread throughout the mound, killing the entire colony, including the queen.

[OPTION B (Alternate directions for Watering In)]

TO CONTROL Fire Ants, Red Harvester Ants, Pavement Ants

HOW TO APPLY

1. (graphic) Sprinkle 1/4 cup granules over and 2 feet around each mound.
2. (graphic) Immediately after applying, *GENTLY* water in granules using at least 1 gallon of water for each mound. Use of high pressure watering equipment may disturb the ants and cause migration, reducing product effectiveness.
3. Treat new mounds as they appear.
4. For spot treatment of ants, other than fire ants: Apply 1 – 1 1/2 teaspoons over and around each ant hill.

Note: For best results, apply in cool weather, 65-80° F, or in early morning or late evening hours. Fast acting, works within 3 days. [No waiting for weeks].

HOW IT WORKS

Chemsico FAK Formula C begins to work upon contact, killing both worker ants and the queen.

STORAGE AND DISPOSAL

Storage: Store in original container in a cool, dry place, out of reach of children, preferably a locked storage cabinet. **Disposal: If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS**Hazards to Humans and Domestic Animals**

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Causes moderate eye irritation. Avoid breathing dust. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco. Remove contaminated clothing and wash clothing before reuse.

FIRST AID

If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. **If inhaled:** Move person to fresh air. If person is not breathing, call 911 or ambulance, then give artificial respiration, preferably

mouth-to-mouth if possible. Call a Poison Control Center or doctor for further treatment advice. **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice. **If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

Environmental Hazards

This pesticide is toxic to fish. Do not apply directly to water. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
