P.O. Box 142642
St. Louis, MO 63114

Subject: Notification of minor additions to label, per PRN 98-10

Dear Ms. Goldberg:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10, dated July 16, 2013, for "Chemsico Ant Control I," EPA Reg. No. 9688-214. The Registration Division (RD) has conducted a review of this request for applicability under PRN 98-10 and finds that the changes requested fall within the scope of PRN 98-10. The label submitted with your application has been stamped "Notification" and added to the product record. Please contact me directly at (703) 308-8735 or chao.julie@epa.gov if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Julie A. Chao".

Julie A. Chao
Insecticide-Rodenticide Branch
Registration Division (7505P)

OPTIONAL MARKETING LANGUAGE

[Scout ants seeking food for their colony find the bait station and begin feeding. They take the bait back to the colony where it is eaten by both the queen and other worker ants. The colony stops reproducing and begins to die, preventing ants from the colony from infesting your home.

- [graphic) **Ants enter bait station** and eat the bait.
- (graphic) **Ants take the bait back to the nest.**
- (graphic) **Ants share the bait, killing other Ants and destroying the colony]**

[This package contains [4] [6] [8] [12] ready-to-use Ant Bait Stations for placement indoors or outdoors along ant trails.]

STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Option A: Label Directions for bait stations:

INDOORS [INDOOR USE]

1. Open pouch [and break bait stations apart from each other.]

4/7

2. Place one bait station along each ant trail or in out-of-the-way places near walls, in cabinets, and under sinks and refrigerators. Heavily infested areas may require two or more bait stations for effective control.

[Optional graphic showing bait placement]

3. For continued indoor control, replace baits every 6 months, or sooner if infestation is heavy or bait station is empty
[Alternate: Replace baits every six months for continued indoor control or sooner if infestation is heavy or bait station is empty.]

OUTDOORS [OUTDOOR USE] (Optional Directions for bait stations or stakes)

1. Open pouch [package] [and break baits apart before using].

2. Place one bait [station] [stake into the ground] along each ant trail around the outside of homes. Place [stations][stakes] in areas inaccessible to children, pets and other non-target animals. Larger homes or homes with heavy infestations may require two or more bait [stations] [stakes] to achieve control.

[Optional graphic showing bait placement]

3. For continued outdoor control replace baits every 3 months or sooner if infestation is heavy [or bait station is empty]. [Alternate: Replace baits every 3 months for continued indoor control or sooner if infestation is heavy or bait station is empty.]

(Option B: label directions for the metal can packaging Note to Reviewer: These directions are not CRP Certified)

- Find indented sections on the sides of the can.
- Simply apply pressure with key until they open [see illustration]
- Indoors:** Place one bait station along each ant trail or in out-of-the-way places near walls, in cabinets, and under sinks and refrigerators. Heavily infested areas may require two or more bait stations for effective control. [Optional graphic showing bait placement]
- For continued indoor control, replace baits every 6 months, or sooner if infestation is heavy or bait station is empty
[Alternate: Replace baits every six months for continued indoor control or sooner if infestation is heavy or bait station is empty.]
- Outdoors:** Place one bait station along each ant trail around the outside of homes. Place [stations] in areas inaccessible to children, pets and other non-target animals. Larger homes or homes with heavy infestations may require two or more bait stations to achieve control. [Optional graphic showing bait placement]
- For continued outdoor control replace baits every 3 months or sooner if infestation is heavy or bait station is empty. [Alternate: Replace baits every 3

months for continued indoor control or sooner if infestation is heavy or bait station is empty.]

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place inaccessible to children and pets. **Disposal:** If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

CAUTION. Wash thoroughly with soap and water after handling bait stations.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
