1/6

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (7505C)
1200 Pennsylvania Avenue NW
Washington, D.C. 20460

EPA Reg. Number:

9688-224

Date of Issuance:

12/07/05

NOTICE OF PESTICIDE:

- Registration
- Reregistration

(under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

Chemsico Roach Control 5L

Name and Address of Registrant (include ZIP Code):

Chemsico, Division of United Industries Corp.
P.O. Box 142642
St. Louis, MO 63114-0642

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following labeling changes before you release the product for shipment:
 - a. Revise the EPA Registration Number to read: "EPA Registration No. 9688-224"

Signature of Approving Official:

George LaRocca
Product Manager (RM 13)
Insecticide Branch
Registration Division (7505C)

Date:

December 07, 2005

b. Precautionary Statements:

- You may delete the statements "**Harmful if absorbed through skin. Causes moderate eye irritation**", and the associated First Aid statements "**If in Eyes:**"- Category IV for acute dermal toxicity and primary eye irritation.
- Remove the word "**eyes**" from the statement "Avoid contact with skin, eyes or clothing".
- Revise the statement "Wash thoroughly with soap and water after handling" to read "**Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco**".
- Add the statement "**Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals**" - Positive dermal sensitization test.

c. Product Performance Evaluation:

- Delete the following claims since the data submitted does not support these claims:
 - Kills Roaches for up to 3 months
 - Last for up to 3 months
 - Keeps on killing for three months
 - Destroys [kills] the nest
 - Solves tough infestation problems
 - Roaches take the bait back to the nest
 - Roaches share the bait, killing other roaches and destroying the nest
 - For continued control replace baits every 3 months, sooner if infestation is heavy
 - Replace all baits every 3 months or sooner if roaches return
- Address the following issues/comments:
 - Data only support application of 2g or larger cockroach bait stations.
 - Claims referring to a 3-month bait station longevity as well as lateral transfer effects should be supported by data sets addressing the following:
 - (1) Three month bait station longevity - How long will a the supply of bait in a station last if made available to a population of foraging cockroaches in a choice test? How long will 10 bait stations last if exposed to a cockroach population a kitchen area or equivalent?
 - (2) Lateral Transfer - note that the submitted data showed that some lateral transfer occurs. However, a choice test is required to confirm the effect or impact of such transfer on cockroach population control. We recommend exposing live cockroaches to a tank of cockroaches killed by the bait that includes fecal material instead of transferring dead cockroaches to tanks of live ones as was previously done.
 - (3) An additional test that should be performed is a choice test in which cockroach feeding on untreated and treated bait matrices is compared.

d. **Child-Resistant Packaging Certification:**

The data submitted supports CRP certification for the labeled retail size of 12 stations and any retail size between 1 and 18 stations. Any retail package containing more than 18 stations must be tested for compliance with the CRP certification.

3. Submit to the Agency, data on one year storage stability testing (830.6317), and corrosion characteristics study (830-6320) at 0, 3, 6, 9 and 12 months of warehouse storage.

Please see enclosed Agency "Product Performance/Efficacy Review" for detailed information on our comments on the subject product performance. Address the above stated issues, revise the subject product's labeling accordingly and submit two copies of the final printed label to the Agency prior to releasing this product for sale.

If you fail to comply with the above stated conditions, this registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A copy of the stamped label is enclosed for your records. If you have any questions concerning this action, please contact Dr. B. A. Akinlosotu at (703) 605-0653.

CARTON

Optional Marketing Language

[Chemsico Roach Control 5L kills roaches that enter the station and eat the bait. The active ingredient is also carried back to the nest, where it will kill roaches you do not see.

- Roaches eat bait, then return to where they breed, carrying the active ingredient with them.
- Roaches die.

[Roaches eat the bait and return to [where they breed] [the nest]. The roaches die leaving a killing residual for the remaining roaches to consume.] [They eat the bait and crawl away to die.] [Guaranteed to work or your money back.]

- [(graphic) *Roaches enter bait station* and eat the bait.
- [(graphic) *Roaches take the bait back to the nest.*
- [(graphic) *Roaches share the bait, killing other roaches and destroying the nest*]

OPTION A LABEL FORMAT

STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Break bait apart from plastic frame before using.
[Alternate: Open pouch and break bait stations apart from each other.]
2. Place bait where you have seen roaches or in out-of-the-way places near walls, in cabinets, under sinks and refrigerators and in closets. Use at least 10 bait stations in the kitchen and 2 in each bathroom. Heavily infested areas may require additional baits.

[Alternate: Place bait stations where roaches have been seen or in out-of-the-way places near walls, in cabinets, under sinks and refrigerators and in closets. Recommended locations: Use at least 10 bait stations in the kitchen and at

o/h

least 2 in each bathroom. Heavily infested areas may require additional bait stations. To apply to vertical surfaces, use the stick-up tape provided.]

- For continued control replace baits every 3 months, sooner if infestation is heavy.

[Alternate: Replace baits every three months for continued control or sooner if infestation is heavy.]

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place inaccessible to children and pets. **Disposal:** If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

First Aid

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice. **If in Eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

OPTION B SIMPLIFIED LABEL FORMAT

STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Diagram of rooms with bait placement arrows in out of the way locations, near walls, in cabinets, under sinks and refrigerators and in closets.

- Use all [12] [18] [24] baits. Break baits apart. Place all baits where roaches are found as shown in the diagram. [Use enclosed stickers as needed.]
- Do not use sprays around baits. Sprays contaminate baits and reduce effectiveness.
- Replace all baits every 3 months or sooner if roaches return.
