UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460

OFFICE OF
PREVENTION, PESTICIDES
AND TOXIC SUBSTANCES

May 29, 2012

Ms. Jessica Goldberg,
Regulatory Affairs Specialist
Chemsico, Div. of United Industries Corp
P.O. Box 142642
St Louis, MO 63114

Subject: Notification to modify refill instructions and add an optional marketing claim.

Chemsico Insecticide Concentrate 5L-T
EPA Registration Number: 9688-231
Date of Application: March 5, 2012

Dear Ms. Goldberg:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration (PR) Notice 98-10 for the subject product. The Registration Division (RD), after conducting a review of your request for its applicability, finds that the action(s) requested fall(s) within the scope the subject notice.

Please note that we have approved the amended labeling for this product with the understanding that it is consistent with the Agency's previously stamped accepted label(s); and other than the above stated, no other changes have been made to the labeling and/or the Confidential Statement of Formula (CSF).

The label submitted with the application have been stamped "Notification" and will be placed in our records. If you have any questions regarding this letter, please contact me or Dr. B. A. Akinlosotu at (703) 605-0653.

Sincerely,

Mark Suarez

Mark Suarez,
Product Manager 13
Insecticide Branch
Registration Division (7505P)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Keep people and pets off treated areas until spray has dried.

- Do not water the treated area to the point of run-off.
- Do not make applications during rain.
- All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
 1. Treatment to soil or vegetation around structures.
 2. Applications to lawns, turf, and other vegetation.
 3. Applications to building foundations, up to a maximum height of 3 feet.
- Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

40f6

In New York State, this may not be applied to lawns within 100 ft of a coastal marsh, or stream that drains into a coastal marsh.

OUTDOORS TO CONTROL WOOD DESTROYING INSECTS

Mix 7.5 fl oz [10 fl oz] with enough water to make one gallon [1.33 gal].

Treat infested areas and areas likely to infested, such as wood surfaces, voids and tunnels [channels] in damaged wood, behind veneers, in structural voids (between stud walls and spaces between wood and foundations, along cracks, along crawl spaces and around outside buildings, porches, wood piles, wooden fences and decks. Kills exposed subterranean termites*, dampwood termites*, drywood termites*, carpenter ants, ambrosid beetles, death hunter beetles, false powderpost beetles and powderpost beetles.

CARPENTER BEES

Mix 0.5 fl oz with enough water to make one gallon.

Treat active tunnels where carpenter bee activity has been observed. Leave the entrance hole open for 48 hours after application to allow the bees to contact and distribute the insecticide throughout the nest galleries. Then plug the entrance hole with a piece of wooden dowel coated with carpenter's glue or wood putty. Plugging the hole will prevent re-infestation of old nesting tunnels and reduce the chances of wood decay.

[NUSIANCE] PESTS OUTSIDE THE HOME

[HOME BARRIER TREATMENT] Mix 0.5 fl.oz. (1 Tablespoon) in one [1] gallon of water and apply as a continuous band of insecticide around building foundation and around windows, doors, eaves, vents and other areas to greatly reduce the potential for entry by crawling pests. For easier application, remove debris and leaf litter from next to the foundation, cut back vegetation and branches that touch the foundation, and move or rake back rocks, deep mulch, or other potential pest harborage next to the foundation. Apply a 3 ft. band around the structure and upwards along the foundation to 3 feet and around windows, doors, and roof overhangs. Apply as a coarse spray to thoroughly and uniformly wet the foundation and/or band area so that the insecticide will reach the soil or thatch level where pests may be active. One [1] gallon will treat 250 sq. ft. of surface area. Repeat application every 8 weeks [2 months].

OUTDOOR SURFACES USE: For control of ants**, centipedes, cockroaches, crickets, fleas, millipedes, mosquitoes, palmetto bugs, scorpions, sowbugs, pillbugs, spiders, deer ticks and waterbugs. Mix 0.5 fl.oz. (1 Tablespoon) in one gallon of water and apply as a residual treatment to ornamental plants next to foundations of buildings and to surfaces of buildings, porches, screens, window frames, eaves, patios, garages and other similar areas where these pests are active. Repeat application every 8 weeks [2 months].

#Note: This product is non-staining to most home siding depending on age and cleanliness. However, before using in areas where the spray can contact home siding (vinyl siding in particular), test in an inconspicuous area and recheck in a few hours. Do not use if any staining is observed.

LAWNS

HOW TO MIX AND APPLY

STEP 1

Determine size of spraying job. Measure the area to be sprayed. Make applications when insects first appear. Applications should be repeated only as directed to maintain control.

STEP 2

Use a clean sprayer. Carefully measure and mix the amount of product and water as indicated in the [rate chart][directions]. It is always a good idea to wear [disposable] gloves when handling pesticides. Kitchen utensils such as measuring cups and measuring spoons should not be used for food purposes after use with pesticides.

STEP 3

Spray as directed. Thorough coverage is important.

STEP 4

Flush sprayer with clean water after each use.

UNDERGROUND INSECTS/THATCH INFESTING INSECTS including Blue grass billbug (adult), Black turfgrass *Ataenius* (adult), chiggers, chinch bugs, white grubs (Japanese beetle, European chafer, Southern chafer), dung beetle and hyperodes weevils (adult), European crane flies, and mole crickets (nymphs and young adults) Mix 0.5 fl.oz. (1 Tablespoon) in 1 gallon of water to treat 125 sq.ft. or 4 fl.oz. in 8 gallons water to treat 1000 sq.ft. For sub-surface insect control (mole crickets, grubs) water treated area with additional ¼ to ½ inch of water for optimum results. [1 quart of Chemsico Insecticide Concentrate 5L-T treats 8,000 sq. ft.]

SURFACE INSECTS including ants**, armyworms, crickets, cutworms, earwigs, fleas, lawn moths (sod webworms), millipedes, sowbugs, mites, spittlebugs, deer ticks (which may transmit Lyme Disease). Thoroughly wet down grass a few hours before applying. Mix 0.5 fl.oz. (1 Tablespoon) in 1 gallon of water to cover [treat] 250 sq. ft. or 2 fl.oz. (4 Tablespoons) in 4 gallons of water to cover [treat] 1000 sq.ft. of lawn. Delay additional watering or mowing for 24 hours after application for optimum control of surface insects. For heavy infestations use rate can be increased to 3 fl.oz./ 1000 sq.ft. [1 quart of Chemsico Insecticide Concentrate 5L-T treats 16,000 sq. ft.]

WHEN TO TREAT: Treat the following pests during the months indicated or when first noticed.

JAN	FEB	MA	APR	MAY	JUN	JUL	AUG	SEP	OC	NO	DEC
		R							T	V	
Treat ants** and other insects when they first appear or you notice lawn damage											
Billbugs											
Dung beetle grubs											
Hyperodes weevils											
Grubs											

*For localized control only. The purpose of such applications of this product for termites is to kill workers or winged reproductive forms which may be present in treated channels at the time of treatment. Such applications are not a substitute for mechanical alteration, soil treatment or foundation treatment but are merely a supplement. This product is not recommended as sole protection against termites. For active termite infestations, get a professional inspection.

**Argentine, Southern, Field, Allegheny mound, Florida carpenter, Cornfield, Honey, Pavement, Nuisance.

REFILL DIRECTIONS

To Refill [Chemsico Home Insect Control 3L] [Chemsico Home Insect Control BB] [EZ SPRAY™] [Easy Action Pump]:
 Refill only with Chemsico Insecticide Concentrate 5L-T. Remove cap. Carefully measure and pour 7½ fl oz of concentrate into empty one gallon EZ Spray container of Chemsico Home Insect Control 3L [Chemsico Home Insect Control BB], and fill to one gallon with water [10 fl oz of concentrate into empty 1.33 gal [brand name] container and fill to 1.33 gal with water]. Replace and tightly close cap. Wipe off any spilled product. See the EZ SPRAY [Easy Action Pump] label for complete directions.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry area away from heat or open flame. **Disposal:** If empty: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Harmful if swallowed. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating drinking, chewing gum or using tobacco.

First Aid

If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. **If in eyes:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the

first 5 minutes, then continue rinsing eye. Call a Poison Control Center or doctor for treatment advice.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.

Environmental Hazards

This pesticide is extremely toxic to fish. Drift and runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid runoff to water bodies or drainage systems.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

OPTIONAL GUARANTEE STATEMENT

*** (Guaranteed Results ICON) If you are not satisfied with this product for any reason send your written request for a refund to the address below, together with the dated store receipt showing the price you paid. Please allow 6-8 weeks for processing.
