STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. **Never use indoors.**

OPTION 1 - PARAGRAPH FORM

SHAKE WELL BEFORE EACH USE. Aim spray away from person. Push button to spray. If it's windy, stand with the wind at your back to avoid spray drift.

WASPS, HORNETS AND YELLOW JACKETS:

Application should be made in late evening when insects are least active. Spray liberally, soaking the nest. Wait at least 24 hours before removing the nest.

Use of this product on evergreen and holly is not recommended as damage may result.

Do not use this product in or on electrical equipment due to possibility of shock hazard.

*This product is non-staining to most home siding depending on age and cleanliness. Before using in areas where the spray may contact home siding, test in an inconspicuous area and recheck in a few hours.

OPTION 2 – SIMPLIFIED DIRECTIONS

1. Apply at sunset when insects are least active (graphic-sunset)
2. Stand a safe distance from the nest. Don't stand directly underneath.
3. Shake can well before each use. Aim spray away from person. Push button to spray. (graphic-hand w/can)
4. Spray the nest until soaked. (graphic-nest).
5. Wait at least 24 hours before removing the nest.

Use of this product on evergreen and holly is not recommended as damage may result.

*This product is non-staining to most home siding depending on age and cleanliness. Before using in areas where the spray may contact home siding, test in an inconspicuous area and recheck in a few hours.

USE TIPS

- If it's windy, stand with the wind at your back to avoid spray drift.
- Do not use this product in or on electrical equipment due to possibility of shock hazard.

OTHER PESTS (For both formats)

Tent Caterpillars: Apply in the late afternoon or evening when caterpillars have returned to their tents. Soak tents on all sides. **Scorpions:** Stand at a safe distance and use the power of the jet spray to reach and cover the scorpion. **Ants:** Spray trails, nest and point of entry. Spray on ants where possible.

STORAGE AND DISPOSAL

Storage: Store in cool, dry area away from heat or open flame. **Disposal:** Do not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

PRECAUTIONARY STATEMENTS**Hazards to Humans and Domestic Animals**

CAUTION: Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or using tobacco.

First Aid

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Have the product container with you when calling a Poison Control Center or doctor, or going for treatment.

Environmental Hazards - This pesticide is toxic to fish. Do not apply directly to water.

Physical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130° F may cause bursting.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.

[**If you are not satisfied with this product for any reason send your written request for a refund to the address below, together with the dated store receipt showing the price you paid. Please allow 6-8 weeks for processing]

[**Questions or comments?** Call 1-800-332-5553]

[Contains NO CFC's or other ozone depleting substances. Federal regulations prohibit CFC propellants in aerosols.]

Subject: **Submission of Final Printed Labeling/Notification of Reinstatement of Distance Claims as Agreed in Agency Meeting January 17, 2006**
Chemisico Wasp & Hornet Killer DL
EPA Reg. No. 9688-233

Dear Mr. LaRocca:

Thank you very much for meeting with Charlie Duckworth and me last week. Enclosed please find Final Printed Labeling/Notification for the subject product. We have made most of the changes specified in the comment letter dated November 30, 2005. As discussed and agreed with you and Mark Suarez, we have retained the distance statements of 20, 22, and 25 feet. As Charlie explained, the distance that this product will spray is a function of the aerosol packaging mechanism rather than the formula itself, and our laboratory testing has demonstrated that the packaging we will use sprays at least 25 feet. Two copies of revised labels are enclosed.

We very much appreciate your allowing us to reinstate these claims by Notification since they are packaging-related. As discussed, this formula is a replacement for our tralomethrin formula, and we have a finite supply of tralomethrin which is dwindling rapidly. Please call me at 314-683-2752 if you have questions or need further information. Thank you very much.

Sincerely,

 Kathie J. Tryson
 Director, Pesticide Regulatory Affairs
