EPA Reg. No. 9688-239

3. Make the following label changes:
 - a. Add the phrase "EPA Registration Number 9688-239" to the front panel.
 - b. Change "were" to "where" in the sentences starting as "Place bait stations" Under Directions for Use on pages 2 and 3.
 - c. Delete the claim: "Roaches share the bait, killing other roaches". The non-choice laboratory study does not support this claim. You may add this claim as an amendment after a free-choice study has been submitted and found to be acceptable by the Agency.
 - d. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Sincerely,

Rita Kumar
Insecticide Rodenticide Branch
Registration Division (7505C)

CONTAINS 6 — 1 fl. oz. (29.6 mL) Bait Stations

TOTAL NET Contents 6 fl oz. (177 mL)

[Bracketed Text] = Optional Language

CARTON

Optional Marketing Language

[Chemsico Roach Control 5DW liquid baits contain a [unique][proprietary] bait formula containing both a water source and a food source. Roaches seeking out food or water will be attracted to the bait stations faster than traditional baits containing just a food source].

- Roaches eat bait, then return to where they breed, carrying the active ingredient with them.
- Roaches die.

[Roaches eat the bait and return to [where they breed] [the nest]. The roaches die leaving a killing residual for the remaining roaches to consume.] [They eat the bait and crawl away to die.] [Guaranteed to work or your money back.]

- ~~[(graphic) Roaches enter bait station and eat the bait.~~
- ~~[(graphic) Roaches take the bait back to the nest.~~
- ~~[(graphic) Roaches share the bait, killing other roaches]~~

How it works [Why Use a Liquid Bait]:

Roaches enter the home in search of water and are most often found near water sources (ie: kitchen and bathroom). This is because a roach can live for up to a month without food, but can only survive seven days without water. This bait is extremely attractive to roaches because it combines an attractive food source with the water source they need, delivering a lethal dose quickly.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

1. Pull tab located on side of bait station to break seal on the vial containing the bait. [Optional graphic showing bait station and location of tab]

ACCEPTED
with COMMENTS
in EPA Letter Dated
SEP 15 2006

Place bait stations ^{where} ~~where~~ roaches have been seen or in out-of-the-way places near walls in cabinets, under sinks and refrigerators and in closets. Place 5 bait stations in the kitchen and one in the bathroom.

9688-239

3/5

[Optional graphic showing locations for bait station placement] Heavily infested areas may require additional bait stations.

3. Examine bait stations once per month to verify that bait is still present in the station. Replace bait stations every three months or sooner if empty bait stations are found.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place inaccessible to children and pets. **Disposal:** If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Wash thoroughly with soap and water after handling bait stations.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
