SUBJECT: Applications for Pesticide Notification per PR Notice 98-10 - Add Optional Marketing Claims
Chemsico RTU MP
Chemsico Wasp & Hornet Killer DS
Applications Dated March 16, 2009

EPA Reg. No. 9688-121
EPA Reg. No. 9688-255

Dear Ms. Lee:

The Agency is in receipt of your Applications for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above products. The Registration Division (RD) has conducted a review of these requests for their applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The labels submitted with the applications have been date-stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Terri Stowe of my staff at 703-305-6117.

Sincerely,

Linda Arrington

S-Bioallethrin.....	0.05%
Other Ingredients.....	99.94%
[TOTAL:	100.00%]

*Contains Petroleum Distillates

KEEP OUT OF REACH OF CHILDREN

CAUTION See back panel for additional precautionary statements.

NET WEIGHT 14 oz (396 g)

STOP. READ THE ENTIRE LABEL BEFORE USE.

[Before using in areas where spray may contact home siding or roof shingles, test for staining in an inconspicuous area and recheck in a few hours.]

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read entire label. Shake well before use.

Keep children and pets out of treated areas until surfaces are dry

For best results, spray in early morning or late evening when insect activity is minimal. Stand a safe distance from nest and not directly underneath. [Remove protective cap.] Hold can upright and point spray opening toward nest with wind at your back. Spray until nest is thoroughly saturated to kill the entire nest population. Residual action will kill wasps and hornets returning to the nest. Wait at least 24 hours before removing the nest. Avoid spraying vegetation directly as damage may result. Do not spray flying insects.

To kill wasps, hornets and yellow jackets under eaves, screens, window frames, doors, patios, cracks, holes or crevices wherever insects are noticed, spray for about 1-2 seconds or until surfaces are moist. To prevent entrance of insects into the house, spray around points where insects enter such as outside plumbing, faucets, etc., and cracks or crevices in foundation as well as along sills and ledges.

Do not use in food/feed areas of food/feed handling establishments, restaurants or other areas where food/feed is commercially prepared or processed. Do not use in serving areas while food is exposed or facility is in operation. Serving areas are areas where prepared foods are served such as dining rooms, but excluding areas where foods may be prepared or held.

Do not apply in classrooms when in use. Do not apply this product in occupied patient rooms or in any rooms/areas while occupied by patients, the elderly or infirm. Do not apply to institutions (including libraries, sports facilities, etc.) in the immediate area when occupants are present.

Non-food/feed areas are areas such as garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

5/14

[Optional Pest Specific Directions

To Kill Wasps: Treatments should be made at dusk or early morning when insects are least active. Shake can and hold upright, pointing valve toward nest with wind at back.

To Kill Hornets: Hornets make their nests in trees and shrubs and under eaves. Do not treat hornet's nests unless you can clearly see the entrance hole at the base. Wait until dusk or early morning when hornets are at rest. Direct spray into entrance hole and continue to spray into nest as hornets fall out or until can is empty or no more hornets are seen. Then vacate areas immediately.

To Kill Yellow Jackets: Yellow jackets make their nests in tree stumps, walls, railroad ties or similar structures. Monitor Yellow Jacket activity during daylight to determine nest location. Treat at dusk or early morning when insects are at rest in nest. Empty entire contents of can into nest hole from close range to ensure product enters entrance hole. Vacate the area.]

STORAGE AND DISPOSAL

Storage: Do not store near heat or open flame. Store in a cool, dry area away from children. Do not contaminate water, food or feed by storage or disposal.

Disposal: Do Not Puncture or Incinerate! **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency [or 1-800-CLEANUP] for disposal instructions.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID	
If swallowed:	<ul style="list-style-type: none"> • Immediately call a Poison Control Center or doctor. • Do not induce vomiting unless told to do so by a Poison Control Center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment.
NOTE TO PHYSICIAN
Contains petroleum distillate – vomiting may cause aspiration pneumonia.

Environmental Hazards

This product is toxic to fish and aquatic invertebrates. Do not apply directly to water.

Physical or Chemical Hazards

Contents under pressure. Keep away from heat, sparks and open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

[Contains No CFC's or Other Ozone Depleting Substances. Federal Regulations. Prohibit CFC Propellants in Aerosols.]

Notice: Buyer assumes all responsibility for safety and use not in accordance with directions.
