U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
 Registration Division (7505C)
 1200 Pennsylvania Ave., N.W.
 Washington, D.C. 20460

NOTICE OF PESTICIDE:

Registration
 Reregistration

(under FIFRA, as amended)

EPA Reg. Number:

9688-263

Date of Issuance:

8-2-07

Term of Issuance:

Conditional

Name of Pesticide Product:

Chemsico Herbicide
 Concentrate 48A

Name and Address of Registrant (include ZIP Code):

Chemsico
 PO Box 142642
 St. Louis, MO

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided you agree in writing to:

1. The Front Panel of the Label must include the following sections: All Precautionary Statements, First Aid Statements, and the Environmental Hazards Statements or these sections must appear on the last page of an attached booklet where the last page stays attached to the product packaging if the booklet is removed.
2. Place the First Aid section within a box.
3. To the First Aid section add "Call a poison control center or doctor for treatment advice." to the "If on Skin or Clothing" sub-section.
4. Change the Hazards to Humans and Domestic Animals statements to "Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes, or clothing."
5. To the Storage and Disposal section add "Do not contaminate water, food, or feed by storage and disposal" directly under the heading "Storage and Disposal". Change the heading

“Storage” to “Pesticide Storage”. Add the heading “Container Disposal” in front of “If Empty”. Also include the heading “Pesticide Disposal” and appropriate accompanying language. Place the Storage and Disposal section within a box.

- 6. Under the heading “Application Restrictions” add “Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.”.
- 7. Add the heading “Entry Restriction” in front of the statement “Do not allow people or pets to enter the treated area until sprays have dried.” In the place of “Do not allow children or pets into the treated area until dry” add “Do not allow people or pets to enter the treated area until sprays have dried.”.
- 8. To the Notice section, change “Buyer assumes all responsibility” to “To the extent consistent with applicable law, buyer assumes all responsibility”.

Signature of Approving Official:

James Tompkins, Product Manager (25)
Herbicide Branch, Registration Division (7505P)

Date:

8-2-07

EPA Form 8570-6

You will submit one copy of your final printed labeling before you release the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). A stamped copy of labeling is enclosed for your records. If you have any questions please contact Erik Kraft at 703-308-9358.

Net [Contents] 1 qt/ 32 fl oz / 946 mL

OPTIONAL PRODUCT FACT BOX

PRODUCT FACT BOX

What it Does:

Kills established weeds including Dollarweed, Sandspur and Florida Betony and prevents weeds from emerging in the lawn

Where to Use: (icon outdoors) St. Augustinegrass and Centipedegrass Lawns: Kills the Weeds, not the Lawn

When to Use: Anytime temperatures are below 90°F

Questions & Comments: (phone icon) (computer icon) Call 1-800-332-5553 or Visit our Website at www.xxxx.com

STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow children or pets into the treated area until dry.

USING THE READY SPRAY NOZZLE (Optional subheading)

1. Shake container well before using.
2. Connect a garden hose to the Ready Spray nozzle. Make sure the dial on the nozzle is in the "OFF" position with the [green] safety tab in the valve notch.
3. Turn on water at faucet. Extend hose to the farthest area to be treated and work back toward the faucet so you don't come in contact with the treated area.
4. To BEGIN spraying, point nozzle toward treatment site and a.) bend the [green] safety tab back (located at right of yellow dial) with your thumb, b.) hold while turning yellow dial clockwise until it stops. Water will automatically mix with the product.
5. Spray until wet to control listed weeds. Walk at a steady pace while spraying using an even sweeping motion.
6. To STOP spraying, QUICKLY turn the dial counter clockwise until it stops and the safety tab engages into the notch on the valve. Turn water off at faucet. To relieve pressure before removing nozzle from hose, bend the safety tab back and turn dial "ON" until water stops spraying.
7. To STORE unused product, make sure the dial is in the "OFF" position with [green] safety tab in the valve notch. Place in cool area away from heat, sunlight or open flame.

3/5

USE PRECAUTIONS

- Do not use near desirable plants as injury may occur.
- Do not apply under windy conditions.
- Do not treat the same area twice.
- Do not apply when temperatures exceed 90°F as lawn injury may occur.
- Use only on healthy home lawns that are not under heat or drought stress and reasonably free of insects, nematodes or diseases.
- Do not use on muck or alkaline soils
- Do not apply in the root zone of trees, ornamentals or vegetables or other desirable plants other than the listed grasses.
- Do not apply to areas where natural drainage would carry the spray to desirable plants.
- Do not replant treated areas, except with listed grasses, within 12 months of application or injury may result.
- Do not overseed treated areas within 6 months after application.
- Sprigging is listed grasses in treated areas is acceptable, however some yellowing or stunting may occur.

APPLICATION RESTRICTIONS

This 32 fl oz [one quart] [bottle][package][container] will treat 3720 sq ft of listed grasses. Do not apply the entire container to an area less than 3720 sq ft. Do not apply to the same area more than 2 times per year.

Weeds Controlled or Partially Controlled in Established St Augustinegrass and Centipedegrass lawns: Annual Blugrass, Chickweed (Common and Mouseear), Crabgrass (partial control), Cransbil, Cudweed, Dichondra, Dollarweed, Florida Betony, Henbit, Knotweed, Lespedeza, Moneywort, Mustards, Narrowleaf Vetch, Parsely-Piert, Pennywort (Dollarweed) Sandspur, Smutgrass, Spurge, Spurweed, Swinecrest. Woodsorrel and various annual clovers.

Spurweed: Control can best be obtained by applying when Spurweed has just emerged (December and January)

Florida Betony: For best control applications should be made in mid to late October followed by a second application in mid to late February.

Dichondra, Moneywort: Apply in early April followed by a second application in July.

Note: Applications for control of Spurweed or Florida Betony will generally give control or partial control of the other listed weeds. However, this product will give best control when applied to tender young weeds or just prior to weed emergence.

[Chemsico Herbicide Concentrate 48A][This product] may be applied during both dormant and growing seasons. Best results are obtained when application takes

place in early Spring or dormant periods when weeds are small or have not emerged. Do not apply more than twice per year to the same area.

[Chemsico Herbicide Concentrate 48A][This product] will control both emerged weeds and weeds from seeds. Rain or watering within 2 or 3 days of application may decrease the [effectiveness on][control of] emerged weeds. However, for the control of emerged weeds from seeds, rainfall or watering is needed within 7 to 10 days after treatment.

STORAGE AND DISPOSAL

Storage: Store in a locked storage area.

If empty: Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS**Hazards to Humans and Domestic Animals**

CAUTION. Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before re-use.

FIRST AID

If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person. **If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes

Note to Physician: There is no specific antidote for Atrazine. If the product is ingested, induce emesis or lavage stomach. The use of an aqueous slurry of activated charcoal may be considered.

Have the product container or label with you when calling a Poison Control Center or doctor for treatment advice.

Environmental Hazards

Atrazine can travel (seep or leach) through the soil and can enter groundwater which may be used as drinking water. Atrazine has been found in drinking water. Users are advised not to apply to Sand and Loamy soils where the water table (groundwater) is close to the surface and where the soils are very permeable, i.e.

well-drained. Your local agricultural agencies can provide further information on the type of soil in your area and the location of the groundwater.

This pesticide is toxic to aquatic invertebrates. Do not apply directly to water or to areas where surface water is present of to the intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift from treated areas. Runoff and drift from treated areas may be hazardous to aquatic organisms in neighboring areas.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
