Subject: Label Amendment – Add Marketing Statements and Revise Directions for Use
Chemsico Herbicide Concentrate 48A
EPA Reg. No. 9688-263
Application dated – January 31, 2013

Dear Ms. Goldberg:

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable. Amended labeling will supersede all previously accepted ones. A stamped copy of labeling is enclosed for your records.

NOTE: Should you wish to retain a reference to a website on your label, please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), and is therefore subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. Additionally, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved for your product through the registration process. Therefore, should the Agency find that a website contains false or misleading statements, or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Submit one (1) copy of final printed labeling before you release the product for shipment. If you have any questions regarding this letter, please contact Maggie Rudick at (703) 347-0257 or rudick.maggie@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Kable Bo Davis", enclosed in a large, hand-drawn oval.

When to Use: Anytime temperatures are below 90°F

Questions & Comments: (phone icon) (computer icon)

Call 1-800-332-5553 or Visit our Website at www.spectracide.com

STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Entry Restriction: Do not allow people or pets to enter the treated area until sprays have dried.

USING THE READY SPRAY NOZZLE (Optional subheading)

1. Shake container well before using.
2. Connect a garden hose to the Ready Spray nozzle. Make sure the dial on the nozzle is in the "OFF" position with the [green] safety tab in the valve notch.
3. Turn on water at faucet. Extend hose to the farthest area to be treated and work back toward the faucet so you don't come in contact with the treated area.
4. To BEGIN spraying, point nozzle toward treatment site and a.) bend the [green] safety tab back (located at right of yellow dial) with your thumb, b.) hold while turning yellow dial clockwise until it stops. Water will automatically mix with the product.
5. Spray until wet to control listed weeds. Walk at a steady pace while spraying using an even sweeping motion.
6. To STOP spraying, QUICKLY turn the dial counter clockwise until it stops and the safety tab engages into the notch on the valve. Turn water off at faucet. To relieve pressure before removing nozzle from hose, bend the safety tab back and turn dial "ON" until water stops spraying.
7. To STORE unused product, make sure the dial is in the "OFF" position with [green] safety tab in the valve notch. Place in cool area away from heat, sunlight or open flame.

[Option B**USING THE READY SPRAY NOZZLE (Optional subheading)**

1. Shake container well before using.
2. Attach a garden hose to the Ready spray nozzle. For first time use remove the safety tab above the trigger by pushing to the left or right until the tab breaks free.
3. Turn on water at faucet. Extend hose to the farthest area to be treated and work back toward the faucet so you do not come into contact with the treated area.
4. To BEGIN spraying point nozzle toward treatment site and squeeze the trigger to the fully on position. Water will automatically mix with the product.
5. Spray until wet to control listed weeds. Walk at a steady pace while spraying using an even sweeping motion, slightly overlapping treated areas.
6. To STOP spraying release the trigger Turn water off at faucet. To relieve pressure before removing nozzle squeeze the trigger until water stops spraying.
7. To STORE unused product make sure the trigger is in the closed position. Place in a cool area away from heat, sunlight or open flame.]

USE PRECAUTIONS

- Do not use near desirable plants as injury may occur.
- Do not apply under windy conditions.
- Do not apply when temperatures exceed 90°F as lawn injury may occur.
- Applications when temperatures are below 60°F may result in slower weed control.
- Use only on healthy home lawns that are not under heat or drought stress and reasonably free of insects, nematodes or diseases.
- Sprigging is listed grasses in treated areas is acceptable, however some yellowing or stunting may occur.

APPLICATION RESTRICTIONS

- Do not treat the same area twice.
- Do not use on muck or alkaline soils
- Do not apply to areas where natural drainage would carry the spray to desirable plants.
- Do not replant treated areas, except with listed grasses, within 12 months of application or injury may result.
- Do not apply in the root zone of trees, ornamentals or vegetables or other desirable plants other than the listed grasses.

- Do not overseed treated areas within 6 months after application or apply to newly seeded lawns for 60 days.
- Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

This 32 fl oz [one quart] [bottle][package][container] will treat 3720 sq ft of listed grasses. Do not apply the entire container to an area less than 3720 sq ft. Do not apply to the same area more than 2 times per year.

Weeds Controlled or Partially Controlled in Established St Augustinegrass and Centipedegrass lawns: Annual Blugrass, Chickweed (Common and Mouseear), Crabgrass (partial control), Cransbil, Cudweed, Dichondra, Dollarweed, Florida Betony, Henbit, Knotweed, Lespedeza, Moneywort, Mustards, Narrowleaf Vetch, Parsely-Piert, Pennywort (Dollarweed) Sandspur, Smutgrass, Spurge, Spurweed, Swinecrest, Woodsorrel and various annual clovers.

Spurweed: Control can best be obtained by applying when Spurweed has just emerged (December and January)

Florida Betony: For best control applications should be made in mid to late October followed by a second application in mid to late February.

Dichondra, Moneywort: Apply in early April followed by a second application in July.

Note: Applications for control of Spurweed or Florida Betony will generally give control or partial control of the other listed weeds. However, this product will give best control when applied to tender young weeds or just prior to weed emergence.

[Chemsico Herbicide Concentrate 48A][This product] may be applied during both dormant and growing seasons. Best results are obtained when application takes place in early Spring or dormant periods when weeds are small or have not emerged. Do not apply more than twice per year to the same area.

[Chemsico Herbicide Concentrate 48A][This product] will control both emerged weeds and weeds from seeds. Rain or watering within 2 or 3 days of application may decrease the [effectiveness on][control of] emerged weeds. However, for the control of emerged weeds from seeds, rainfall or watering is needed within 7 to 10 days after treatment.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.
Pesticide Storage: Store in a locked storage area. If product freezes, shake well before use once it has thawed.

Container Disposal: If empty: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.
Pesticide Disposal: If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Harmful if swallowed or absorbed through skin. Avoid contact with skin, eyes or clothing.

FIRST AID

If Swallowed: Call a Poison Control Center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.

Note to Physician: There is no specific antidote for Atrazine. If the product is ingested, induce emesis or lavage stomach. The use of an aqueous slurry of activated charcoal may be considered.

Have the product container or label with you when calling a Poison Control Center or doctor for treatment advice.

Environmental Hazards

Atrazine can travel (seep or leach) through the soil and can enter groundwater which may be used as drinking water. Atrazine has been found in drinking water. Users are advised not to apply to Sand and Loamy soils where the water table (groundwater) is close to the surface and where the soils are very permeable, i.e. well-drained. Your local agricultural agencies can provide further information on the type of soil in your area and the location of the groundwater.

This pesticide is toxic to aquatic invertebrates. Do not apply when weather conditions favor drift from treated areas. Runoff and drift from treated areas may be hazardous to aquatic organisms in neighboring areas. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
