Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is **conditionally** registered in accordance with FIFRA sec. 3(c)(7)(A), provided that:

1. You will submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. You will make the following label changes before you release the product for shipment:
  - a) Revise the EPA Registration Number to read "EPA Reg. No. 9688-269."
  - b) Revise the marketing claim "*Unique Technology/Killing System*". Words or phrases implying that a product possesses unique characteristics because of its composition are not acceptable.
  - c) The container disposal statements for pesticides have been revised. Refer to PR Notice 2007-4 and modify your label accordingly.

- 3. Data requirements for the 830 Series Subgroup A and Subgroup B Guidelines are satisfied with the exception of storage stability (830.6317) and corrosion characteristics data (830.6320). **One year storage stability and corrosion characteristics data must be submitted to the Agency.** Refer to the enclosed Product chemistry review memo for details concerning the requested data.
- 4. Revise the product data matrix by selectively citing the same efficacy studies used to support the me-too product (EPA Reg. No. 9688-187).
- 5. Please submit two (3) copies of your final printed labeling before releasing the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing revised labeling constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

If you have any questions regarding this action, please contact Olga Odiott of my team at (703) 308-9369.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow people or pets to contact treated surfaces until dry.

5096

**HOW TO USE**

For spot treatment only. All food preparation surfaces and utensils should be covered during treatment or thoroughly washed before use. Avoid contamination of food and drinking water. Remove pets and cover aquariums before spraying.

**SHAKE WELL BEFORE USING.** [Push extension tube into nozzle located above the trigger and remove safety tab.] [Tilt extension tube to a 90° angle with can.] Point away from face. [Slowly pull trigger to dispense foam.] Apply evenly, avoid dripping and runoff. *[graphic icon]*

Treat infested areas and areas likely to be infested, such as wood surfaces, voids and tunnels [channels] in damaged wood, behind veneers, in structural voids, [between stud walls and spaces between wood and foundations], along cracks, and along crawl spaces. Termites<sup>†</sup> coming in contact with the product will be killed.

**TIPS TO REDUCE THE RISK OF TERMITES<sup>†</sup>**

In addition to using this product to spot treat for termites., there are some important steps you can take to reduce the risk of getting termites:

- ✓ Eliminate sources of moisture for termites (any areas that remain moist inside and outside the home)
- ✓ Remove food sources (any direct wood to ground contact, including branches for trees and shrubs)
- ✓ Apply a pre-treatment when building a new home
- ✓ Have a regular termite inspection

<sup>†</sup>This [product] [treatment] will kill workers and/or winged reproductive forms of termites present at the time of application only. For active, structural infestations by subterranean termites this product can only be used to supplement application of a federally registered stand-alone termiticide. Application of this product will not provide structural protection, nor substitute for mechanical alteration, soil or foundation treatment with termiticide. This product is not to be used as sole protection against termites, as it will neither eliminate termite infestations nor provide protection against future infestations. A professional inspection is recommended.
