[Use Chemsico Aerosol Insecticide GE as a spot treatment indoors

- > Along & Behind Baseboards [graphic depicting use]
- > Around & Beneath Appliances [graphic depicting use]
- > Beneath & Behind Sinks [graphic depicting use]

[Other Areas Where Insects Are Often Found

- > In cracks and crevices > Around pipes and plumbing
- > In dark corners of rooms, cabinets and closets > Around waste containers]

STOP! READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. *For indoor residential use only.*

HOW TO USE

Shake well before using. Spray surfaces until wet, moving the spray rapidly to prevent excessive wetting and waste of product. Point spray away from people, pets and plants. Do not use as a room spray. Remove pets and cover aquariums before spraying. Do not allow the spray to contact food or food contacting surfaces. Thoroughly wash dishes, utensils and counter tops with soap and water if they are sprayed with this product.

WHERE TO USE

Indoors as spot treatment for control of **Cockroaches, Ants, Carpenter Ants, Spiders, Crickets, Firebrats and Silverfish.** Direct spray [by placing extension tube in the horizontal position] into cracks and crevices in walls, dark corners of rooms, cabinets and closets, along and behind baseboards, beneath and behind sinks, stoves, refrigerators and cabinets, around plumbing and other utility installations, around waste containers and wherever else these pests may find entrance. Residual activity lasts up to three months[12 weeks]. [Alternate: Kills returning insects for up to 12 weeks[3 months]].

To Kill Fleas and Brown Dog Ticks, spray infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor coverings where these pests may be present. Test inconspicuous sample of fabric or rug for staining before use. Old bedding of pets should be removed and cleaned or replaced with clean, fresh bedding after treatment of pet area. **Do not treat pets with this product.** To control the source of flea infestations, treat your pet with a product registered for animal application [such

as . . .]. Also treat your yard with a product registered for yard application [such as . . .].
To Kill Bed Bugs and Bed bug eggs: Apply as a spot treatment to cracks and crevices, around baseboards, floorboards, bedboards and walls. Allow treated surfaces to dry thoroughly before use. Repeat after 4 weeks if necessary. For persistent infestations consult a professional applicator. **To treat beds for bed bugs and bed bug eggs:** Disassemble the bed frame and remove bedding. Do not apply product to bedding. Wash bedding and dry using medium to high heat to kill bed bugs. Apply this product to the bed frame, mattress and box spring. Application to mattresses and box springs is intended for treatment of seams, edges and tufts only. Do not saturate the mattress or box spring. Do not treat the entire surface of the mattress or box spring. Allow the spray to dry before using the mattress and/or box spring. Also apply the product to cracks and crevices in the sleeping area. Make spot treatments to baseboards, behind pictures/wall hangings, along and underneath carpet edges and other articles/furniture in the bedroom or sleeping area. Do not apply to stuffed animals or toys. **To treat luggage for bed bugs:** Remove contents and spot treat areas that may harbor bed bugs, concentrating on corners, pockets inside the luggage and seams. Allow luggage to dry before reuse.

To Kill Dust Mites: Thoroughly vacuum entire room, concentrating on areas where dust mites congregate such as headboards, walls, floors, carpeting and baseboards. Apply as a spot treatment to those areas.

STORAGE AND DISPOSAL

Store in cool, dry area away from heat or open flame. Do Not Puncture or Incinerate!
If empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

First Aid

If Swallowed: Immediately call a Poison Control Center or doctor. Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice.

Have the product container with you when calling a Poison Control Center or doctor, or going for treatment.

Note to Physician: Contains petroleum distillates – vomiting may cause aspiration pneumonia.

Physical or Chemical Hazards

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 130° F may cause bursting.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.

OPTIONAL FORMAT – TERMITE PRODUCT

For Residential Use Only

[Kills termites* •Kills termites* (exposed drywood, dampwood & subterranean) • Kills on contact • Kills fast • Fast killing • Includes an attachable [extension] tube for localized treatment of termites* • Includes an attachable [extension] tube to reach termites* • Use indoors and outdoors • Water-based • No oily residue • Non-staining • Unscented • Leaves no odor]

*For localized kill only of above ground drywood termite infestations.

Optional Marketing Language & Directions for a Foaming Termite Product

OPTIONAL MARKETING CLAIMS

[Bracketed Text] = Optional language

[Expanding foam kills termites* on contact in their tunnels] • [Chemsico Aerosol Insecticide GE is highly effective against above ground termite infestations.** It can be sprayed indoors and outdoors on wooden surfaces. The foam expands to where insects live [and eventually dissipates]. Spray [the foaming aerosol] into hard to reach areas, such as voids and tunnels [channels] in damaged wood, along cracks, termite tunnels, and along crawl spaces and other wood surfaces anywhere insects hide.]

*For localized kill only of above ground drywood termite infestations.

**For localized kill only.

STOP. Read entire label before use.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not allow people or pets to contact treated surfaces until dry.

HOW TO USE

For spot treatment only. All food preparation surfaces and utensils should be covered during treatment or thoroughly washed before use. Avoid contamination of food and drinking water. Remove pets and cover aquariums before spraying.

SHAKE WELL BEFORE USING. [Push extension tube into nozzle located above the trigger and remove safety tab.] [Tilt extension tube to a 90° angle with can.] Point away from face. [Slowly pull trigger to dispense foam.] Apply evenly, avoid dripping and runoff. [graphic icon]

Treat infested areas and areas likely to be infested, such as wood surfaces, voids and tunnels [channels] in damaged wood, behind veneers, in structural voids, (between stud walls and spaces between wood and foundations), along cracks, and along crawl spaces. Termites coming in contact with the product will be killed.

TIPS TO REDUCE THE RISK OF TERMITES†

In addition to using this product to spot treat for termites, there are some important steps you can take to reduce the risk of getting termites:

- ✓ Eliminate sources of moisture for termites (any areas that remain moist inside and outside the home)
- ✓ Remove food sources (any direct wood to ground contact, including branches for

trees and shrubs)

- ✓ Apply a pre-treatment when building a new home
- ✓ Have a regular termite inspection

†This [product] [treatment] will kill workers and/or winged reproductive forms of termites present at the time of application only. For active, structural infestations by subterranean termites this product can only be used to supplement application of a federally registered stand-alone termiticide. Application of this product will not provide structural protection, nor substitute for mechanical alteration, soil or foundation treatment with termiticide. This product is not to be used as sole protection against termites, as it will neither eliminate termite infestations nor provide protection against future infestations. A professional inspection is recommended.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry area away from heat or open flame. **Disposal:** Do Not Puncture or Incinerate! **If empty:** Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions.
