Subject: Notification per PR Notice 98-10 –Add Optional Marketing Statements
Chemsico Pesticide Concentrate WI-S
EPA Reg. No. 9688-290
Application Dated – February 3, 2012

Dear Ms. Goldberg:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the subject product.

The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10. The label submitted with the application has been date-stamped "Notification" and will be placed in our records.

If you have any questions regarding this letter, please contact Maggie Rudick at (703) 347-0257 or rudick.maggie@epa.gov.

Sincerely,

Kathryn Montague, Product Manager 23
Herbicide Branch
Registration Division (7505P)

2019

Subject: **NOTIFICATION: Label Notification per PRN 98-10**
Chemsico Pesticide Concentrate WI-S
EPA Reg. No. 9688-290

Enclosed please find our notification per 98-10 to add optional marketing claims. All changes have been highlighted on the enclosed label.

This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

NOTIFICATION

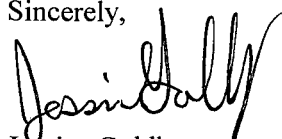

FEB 23 2012

The following documents are enclosed in support of this submission:

1. Application for Pesticide (EPA Form 8570-1)
2. One copy of the proposed label *with changes highlighted*
3. One clean copy of the proposed label

Please call me at 1-800-242-1166, Ext. 2438 or via email: jessica.goldberg@spectrumbrands.com, if you have questions or need further information. Thank you in advance for your time.

Sincerely,

Jessica Goldberg

Chemsico

Pesticide Concentrate WI-S

NOTIFICATION
FEB 23 2012

Active Ingredients:

* 2,4-D, dimethylamine salt	2.37%
†Mecoprop-p, dimethylamine salt	0.57%
‡Dicamba, dimethylamine salt	0.26%
Gamma-cyhalothrin.....	0.08%
Other Ingredients.....	96.72%

* 0.167 lb. 2,4-D acid equivalent per gallon or 1.96%. † 0.040 lb. Mecoprop-p acid equivalent per gallon or 0.470%. ‡ 0.018 lb. Dicamba acid equivalent per gallon or 0.217%. Contains the single isomer form of Mecoprop-p.

KEEP OUT OF REACH OF CHILDREN

CAUTION See back [panel] [booklet] for additional precautionary statements

NET CONTENTS 32 FL. OZ. (1 QUART)

[OPTIONAL PRODUCT FACT BOX]

PRODUCT FACTS

What It Does:
Kills Broadleaf Weeds Including Dandelion, Chickweed and Clover and lawn insects (See inside for complete list)

Where to Use: (icon weeds and insects)
Lawns: Kills the Weeds and insects not the Lawn. Use this product on St. Augustine*, bahia, centipede, Bermuda, bentgrass and zoysia varieties only.

When to Use:
Do Not Apply when Daytime Temperatures are above 85° F as Lawn injury can occur

Questions & Comments: (icon phone) (icon computer)

*Do not use on Foratam variety of St. Augustinegrass in Florida.

[STOP. READ ALL INSTRUCTIONS INSIDE BEFORE USING.]

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING.

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

Do not allow people or pets to enter the treated area until sprays have dried.

HOW TO MIX

Choose from one of the application methods listed below.

[Pump-Up][Pressurized] Sprayer or Trigger Bottle Sprayer

1. Start with a clean sprayer.
2. Add the amount of concentrate specified below.
3. Replace sprayer top and shake well before spraying.
4. For pressure sprayers pump to pressurize according to sprayer instructions

4049

DIAL-STYLE HOSE END SPRAYER

1. Start with a clean sprayer.
2. Set sprayer to the "fl oz/gallon" level specified below.
3. Use only enough product for the area to be treated
4. Close sprayer and attach to hose prior to application

CONCENTRATE PLUS WATER-STYLE SPRAYER

1. Start with a clean sprayer.
2. Determine the amount of concentrate required below.
3. Pour concentrate into sprayer jar to the required "fl. oz." level.
4. Then add the required amount of water to the "gals." level.
5. Replace sprayer top on jar and shake well before spraying.

MEASUREMENT CONVERSIONS

1 Tablespoon = 3 teaspoons, 1 fl. oz. = 6 teaspoons or 2 tablespoons,
6 fl. oz. = $\frac{3}{4}$ cup

1 $\frac{1}{2}$ Tablespoons in 3 gallons of water = 1 $\frac{1}{2}$ teaspoons in 1 gallon of water

2 Tablespoons in 3 gallons of water = 2 teaspoons in 1 gallon of water

SURFACE INSECTS: ants (Fire, Argentine, Carpenter, Southern, Field, Allegheny mound, Cornfield, Honey, Pavement, Red harvester, Odorous, Pyramid, Black turf, White-footed, Crazy, Little black, Small honey, Ghost, Thief, Acrobat, Citronella and Big-headed), armyworms (Fall, Yellow-striped), cockroaches, crickets (House, Common short-tailed, Indies short-tailed, Arizona, Tropical, Variable field, Fall field, Southeastern field, Texas field, Spring field, Northern wood, Western striped, Eastern striped, Sand field, Vocal field, Southern wood) cutworms (Black, Bronzed, Granulate, Variegated), earwigs, fleas, lawn moths (sod webworms), millipedes, mosquitoes, palmetto bugs, sowbugs, mites, spittlebugs, and waterbugs: Thoroughly wet down grass a few hours before applying. Mix 1.5 fl.oz. (3 Tablespoons) in 1 gallon of water to cover [treat] 240 sq. ft. [1 Qt of Chemsico Pesticide Concentrate WI-S will treat 5120 sq ft.] Delay additional watering or mowing for 24 hours after application for optimum control. Use this product on St. Augustine*, Bahia, Centipede, Bermuda, Bentgrass, and zoysia varieties only.

This application will also kill broadleaf weeds that have emerged at the time of application. See enclosed Table for list of weeds controlled.

WHEN TO TREAT: Treat when insects are present in the area to be treated.

*Do not use on Floratam variety of St. Augustinegrass in Florida.

USE PRECAUTIONS

- 1) For best results, mow before treating weeds.
- 2) **For new lawns**, treat within 24 hours after seeding. **On established lawns**, wait 3 weeks after treatment before re-seeding. Once new grass has started to grow, wait until it has reached a height of 2 inches before treating.
- 3) Whether using a hose-end sprayer or pressure sprayer, avoid sprays which are too fine because they can drift and damage other plants.

USE RESTRICTIONS

- Do not treat when air temperatures exceed 85° F or damage to grass may occur.
- Do not water within 6 hours after treatment. Poor weed control may result if rainfall occurs within 6 hours of application.
- Do not allow spray to get on vegetables or ornamental plants since injury may result. Do not spray around roots of trees and ornamentals. Clover will be damaged if sprayed.
- Do not make more than 2 applications per year with a minimum retreatment interval of 30 days.
- Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays and oceans. Do not apply when windy. To prevent product run-off, do not over water the treated area(s) to the point of runoff or apply when raining or when rain is expected that day. Rinse applicator over lawn or garden area only.
- Do not apply as a fine mist because of potential for injury to desirable plants.
- Do not water the treated area to the point of run-off
- Do not make applications during rain.
- All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
 1. Treatment to soil or vegetation around structures
 2. Applications to lawns, turf, and other vegetation
- All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

In New York State, this product may not be applied to lawns within 100 ft of a coastal marsh, or stream that drains directly into a coastal marsh.

OPTIONAL READY SPRAY NOZZLE DIRECTIONS

STOP. READ ENTIRE LABEL BEFORE USE.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application.

Do not allow people or pets to enter the treated area until sprays have dried.

HOW TO APPLY

Determine the size of the spraying job. For lawns measure the area to be sprayed. For trees, shrubs and flowers, apply as a thorough cover spray. Begin treating when insects first appear. Applications should be repeated only as directed to maintain control. Apply as directed [in the rate chart]. Remember, thorough coverage is important. Be sure to follow the important use limitations for the specific area you are treating, including the amount of spray that can be applied.

USING THE READY SPRAY NOZZLE (Optional subheading)

1. Shake container well before using.
2. Connect a garden hose to the Ready Spray nozzle. Make sure the dial on the nozzle is in the "OFF" position with the [green] safety tab in the valve notch.
3. Turn on water at faucet. Extend hose to the farthest area to be treated and work back toward the faucet so you don't come in contact with the treated area.
4. To BEGIN spraying, point nozzle toward treatment site and a.) bend the [green] safety tab back (located at right of yellow dial) with your thumb, b.) hold while turning yellow dial clockwise until it stops. Water will automatically mix with the product.
5. Spray until wet to control insects. Walk at a steady pace while spraying using an even sweeping motion, slightly overlapping treated areas.
6. To STOP spraying, QUICKLY turn the dial counter clockwise until it stops and the safety tab engages into the notch on the valve. Turn water off at faucet. To relieve pressure before removing nozzle from hose, bend the safety tab back and turn dial "ON" until water stops spraying.
7. To STORE unused product, make sure the dial is in the "OFF" position with [green] safety tab in the valve notch. Place in cool area away from heat, sunlight or open flame.

SURFACE INSECTS: ants (Fire, Argentine, Carpenter, Southern, Field, Allegheny Mound, Cornfield, Honey, Pavement, Red Harvester, Odorous, Pyramid, Black Turf, White-footed, Crazy, Little Black, Small Honey, Ghost, Thief, Acrobat, Citronella and Big-headed), armyworms (Fall, Yellow-striped), cockroaches, crickets (House, Common short-tailed, Indies short-tailed, Arizona, Tropical, Variable field, Fall field, Southeastern field, Texas field, Springfield, Northern wood, Western striped, Eastern striped, Sand field, Vocal field, Southern wood) cutworms (Black, Bronzed, Granulate, Variegated), earwigs, fleas, lawn moths (sod webworms), millipedes, mosquitoes, palmetto bugs, sowbugs, mites, spittlebugs, and waterbugs:

Thoroughly wet down grass a few hours before applying. 1 Qt of Chemsico Pesticide Concentrate WI-S will treat 5120 sq ft. Delay additional watering or mowing for 24 hours after application for optimum control. Use this product on St. Augustine*, Bahia, Centipede, Bermuda, Bentgrass and zoysia varieties only

This application will also kill broadleaf weeds that have emerged at the time of application. See enclosed Table for list of weeds controlled.

WHEN TO TREAT: Treat when insects are present in the area to be treated.

*Do not use on Floratam variety of St Augustinegrass in Florida

USE PRECAUTIONS

- 1) For best results, mow before treating weeds.
- 2) **For new lawns**, treat within 24 hours after seeding. **On established lawns**, wait 3 weeks after treatment before re-seeding. Once new grass has started to grow, wait until it has reached a height of 2 inches before treating.
- 3) Whether using a hose-end sprayer or pressure sprayer, avoid sprays which are too fine because they can drift and damage other plants.

USE RESTRICTIONS

- Do not treat when air temperatures exceed 85° F or damage to grass may occur.
- Do not water within 6 hours after treatment. Poor weed control may result if rainfall occurs within 6 hours of application.
- Do not allow spray to get on vegetables or ornamental plants since injury may result. Do not spray around roots of trees and ornamentals. Clover will be damaged if sprayed.
- Do not make more than 2 applications per year with a minimum retreatment interval of 30 days.
- Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays and oceans. Do not apply when windy. To prevent product run-off, do not over water the treated area(s) to the point of runoff

or apply when raining or when rain is expected that day. Rinse applicator over lawn or garden area only.

- Do not apply as a fine mist because of potential for injury to desirable plants.
- Do not water the treated area to the point of run-off
- Do not make applications during rain.
- All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:
 3. Treatment to soil or vegetation around structures
 4. Applications to lawns, turf, and other vegetation
- All outdoor applications to impervious surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors, and eaves) are limited to spot and crack-and-crevice applications, only.
- Application is prohibited directly into sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

In New York State, this product may not be applied to lawns within 100 ft of a coastal marsh, or stream that drains directly into a coastal marsh.

-----END OF OPTIONAL READY SPRAY NOZZLE DIRECTIONS-----

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.
Pesticide Storage: Store in a cool, dry area. Always store pesticides in the original container. Store away from food and pet food. **Pesticide Disposal and Container Handling:** Non-refillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency or www.websites.com for disposal instructions. Never place unused product down any indoor or outdoor drain.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

FIRST AID

If swallowed:	<ul style="list-style-type: none"> • Call a Poison Control Center or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by a Poison Control Center or doctor. Do not give anything by
----------------------	---

If in Eyes:	<p>mouth to an unconscious person.</p> <ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes; then continue rinsing eye. • Call a Poison Control Center or doctor for treatment advice.
<p>Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. You may also contact 1-800-zzz-zzzz for emergency medical treatment information.</p>	

Environmental Hazards

This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.
