## Fire Ant Killer 6B

For residential lawn use only.

**ACCEPTED**  
DEC 15 2011  
Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide Registered under EPA Reg. No. 9688-295

Active Ingredient: Bifenthrin\* ..... 0.2%  
Other Ingredients ..... 99.8%

\*Cis isomers 97% minimum, trans isomers 3% maximum

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION.** See back for additional precautionary statements.

Net Wt 11.5 lb (5.22 kg)

### DIRECTIONS FOR USE

#### OPTIONAL PRODUCT FACT BOX

#### PRODUCT FACTS

**What it Does:**  
Kills Fire Ants

**Where to Use: (icon outdoors)**  
Outdoors, on residential Lawns

**Amount to Use:**  
Broadcast--11.5 pounds covers 5000 sq ft  
Mound Treatment--Apply 1/2 cup per mound

**Questions & Comments: (icon phone) (icon computer)**  
Call 1-800-332-5553 or visit our website at www.xxx.com

### STOP. READ ENTIRE LABEL BEFORE USE.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Keep children and pets off treated area until product has been watered in and lawn is dry.

#### WHERE TO USE

[Chemsico Fire Ant Killer 6B][This product] is for use to kill Fire Ants and other ants (including Argentine, Odorous, Pyramid, Pavement and Red Harvester) in home lawns or garden areas only. Applications may be made as broadcast or as individual mound treatments.

#### FOR MOUND TREATMENT

#### HOW TO USE

Make applications in the early morning or late evening hours when it is cool and the ants are most active. Apply when temperatures are between 65° and 80° F.

#### HOW TO APPLY

Treat mound and an area 4 ft in diameter around the mound. Apply 1/2 cup [of Chemsico Fire Ant Killer 6B][of this product] over each fire ant mound. Irrigate the soil before application if it is dry. After application apply 1 to 2 gallons of water over and around each mound.

**NOTE:** Food utensils such as teaspoons and measuring cups must not be used for food purposes after measuring pesticides.

**FOR BROADCAST TREATMENT**

**HOW TO USE**

Apply during the morning or late evening when it is cool and the ants are most active. Treat the entire lawn area to prevent reinfestation of fire ants from neighboring areas. For best control of foraging workers and newly mated fly-in queens, use both broadcast applications and mound treatments that will kill existing colonies.

**HOW TO APPLY**

Apply uniformly over your lawns using the suggested spreader settings. Water lawn after application to wash granules from the lawns foliage. Irrigate the soil 24 hours before application if it is dry. For best results mow lawn 24 hours before application.

**Spreader Settings for Overall Lawn Application**

Spreader type	Spreader Setting 11.5 lb bag covers 5000 sq ft	Application Instructions
Drop Spreaders [optional list of drop spreader models]	[available at printing of bags]	Apply granules with spreader going in the same direction as the longest part of the lawn. Apply two (2) header strips first. To ensure thorough coverage make sure to overlap wheel marks slightly. Shut off the spreader when you reach header strips or you are finished applying product.
Rotary Spreaders [optional list of rotary spreader models]	[available at printing of bags]	Shut off spreader anytime you stop. For complete coverage make each pass about 5 ft from the previous one so some overlap occurs. Do not apply this product on vegetables.

Note: The spreader settings listed above are approximate. Accurately weigh a few pounds into your spreader and apply to a measured area. Then adjust spreader setting if necessary, in order to assure correct rate of application.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal  
**Storage:** Reclose container tightly after each use. Store in a cool, dry area which is inaccessible to children and pets. **Disposal:** If empty: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**PRECAUTIONARY STATEMENTS****Hazards to Humans and Domestic Animals**

**CAUTION.** Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

**First Aid**

**If on Skin or Clothing:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or doctor for treatment advice. Have the product container or label with you when calling a Poison Control Center, doctor, or going for treatment. You may also contact 1-800-332-5553 for emergency medical treatment information.

**Note to Physician:** This product is a pyrethroid. If large amounts have been ingested milk, eggs, cream and other digestible fats and oils may increase absorption and so should be avoided.

**Environmental Hazards**

This product is highly toxic to fish and aquatic invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Sweeping any product that lands on a driveway, sidewalk, or street, back onto the treated area of the lawn or garden will help to prevent run off to water bodies or drainage systems.

**NOTICE: To the extent consistent with applicable law, buyer assumes all responsibility for safety and use not in accordance with directions.**

[\*If you are not satisfied with this product for any reason send your written request for a refund to the address below, together with the original dated store receipt showing the price you paid. Please allow 6-8 weeks for processing.]
