CHEMSICO

Subject: Non-PRIA (Pesticide Registration Improvement Act) Labeling Amendment - Updating the mandatory labeling statement, optional guarantee claims, and copyright date, and correcting typographical errors.
Product Name: Black Flag Home Insect Control Concentrate
Admin Number: 9688-302
EPA Receipt Date: 08/22/2026
Action Case Number: 00720000

Dear Regina M. Ware:

The amended labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable.

This approval does not affect any terms or conditions that were previously imposed on this registration. You continue to be subject to existing terms or conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release this product for shipment with the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR § 152.3.

The label submitted with the application has been stamped "Accepted Only Indicated Revisions Reviewed" and is enclosed for your records.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

If you have questions, please contact Laura Rademacher via email at rademacher.laura@epa.gov.

Sincerely,

A handwritten signature in black ink, reading "Jacquelyn Herrick". The script is elegant and cursive, with the first letters of each name being capitalized and prominent.

Jacquelyn Herrick, Chief

ACCEPTED
ONLY INDICATED
REVISIONS REVIEWED

09/25/2026

Under the Federal Insecticide, Fungicide and
Rodenticide Act as amended, for the pesticide
registered under EPA Reg. No.

9688-302

No label revisions other than those indicated were
reported to the Agency.

ACTIVE INGREDIENT:	
Deltamethrin.....	0.32%
OTHER INGREDIENTS	99.68%
	100.00%

[Peel Here For [Complete] Directions and Precautions]
KEEP OUT OF REACH OF CHILDREN
CAUTION See back [booklet] [panel] for additional precautionary statements.

Net Contents: 8 fl oz, 10.4 fl oz, 12 fl oz, 16 fl oz (473 mL), 32 fl oz (946 mL)

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION. Harmful if inhaled. Avoid breathing spray mist. Contact with product may result in transient tingling and reddening of the skin. Avoid contact with skin or clothing. Remove and wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

FIRST AID
IF INHALED: Move person to fresh air.
If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. In case of medical emergencies or health and safety inquiries or in case of fire, leaking or damaged containers, information may be obtained by calling 1-800-332-5553.

ENVIRONMENTAL HAZARDS
This product is extremely toxic to fish and aquatic invertebrates. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

PHYSICAL OR CHEMICAL HAZARDS
Do not apply this product in or on electrical equipment due to possibility of shock hazard.

STOP. READ ENTIRE LABEL BEFORE USE.
RESEALABLE LABEL · PEEL HERE

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
For Indoor and Outdoor Residential [Home] Use Only:
{When outdoor uses are included, the following restrictions will also be included}:
All outdoor spray applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

1. Application to pervious surfaces such as soil, lawn, turf, and other vegetation;
2. Perimeter band treatments of 7 feet wide or less from the base of a man-made structure to pervious surfaces (e.g., soil, mulch, or lawn);
3. Applications to underside of eaves, soffits, doors, or windows permanently protected from rainfall by a covering, overhang, awning, or other structure;
4. Applications around potential exterior pest entry points into man-made structures such as doorways and windows, when limited to a band not to exceed one inch;
5. Applications to vertical surfaces (such as the side of a man-made structure) directly above impervious surfaces (e.g., driveways, sidewalks, etc.), up to 2 feet above ground level;
6. Applications to vertical surfaces directly above pervious surfaces, such as soil, lawn, turf, mulch or other vegetation) only if the pervious surface does not drain into ditches, storm drains, gutters, or surface waters.

Spot treatments must not exceed two square feet in size (for example, 2 ft. by 1 ft. or 4 ft. by 0.5 ft.).

For soil or foliar applications, do not apply by ground within 25 feet of lakes, reservoirs, rivers, permanent streams, marshes or natural ponds, estuaries and commercial fish farm ponds.

Do not apply the product into fish pools, ponds, streams, or lakes. Do not apply directly to sewers or storm drains, or to any area like a drain or gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur.

Do not allow the product to enter any drain during or after application.

Do not apply directly to impervious horizontal surfaces such as sidewalks, driveways, and patios except as a spot or crack-and-crevice treatment.

Do not apply or irrigate to the point of runoff.

Do not make applications during rain. Avoid making applications when rainfall is expected before the product has sufficient time to dry (minimum 4 hours).

Rainfall within 24 hours after application may cause unintended runoff of pesticide application.

Treat surfaces to ensure thorough coverage but avoid runoff.

To treat insects harbored in voids and cracks-and-crevices, applications must be made in such a manner to limit dripping and avoid runoff onto untreated structural surfaces and plants.

Do not allow to enter indoor or outdoor drains. Follow proper disposal procedures on this label.

No permita la entrada a desagües internos o externos. Siga las indicaciones del etiquetado para el desecho apropiado del producto.

[To Be Used As A Refill for Black Flag Home Insect Control] [or product name] [Only].

To an empty [Black Flag Home Insect Control] [or product name] [container] [sprayer] [remove the pump handle and] add [8 oz] [1 bottle] [8 Fl oz] for 1 Gal] [12 Fl oz for 1.5 Gal], [10.4 Fl oz for 1.3 Gal], of Black Flag Home Insect Control Refill Concentrate [or product name] and fill slowly with water to make [1 Gallon] [1.5 Gallon] [1.3 Gallon] of [Ready-To-Use Spray] spray. Replace [pump handle] [cap] [sprayer] and shake well before using. [Shake sprayer well before each use.] When 8 fl. Oz. of this product are mixed with one gallon of water, the resulting solution contains 0.02% deltamethrin. Apply at the rate of one gallon of finished solution (0.02% deltamethrin) per 1,000 square feet as directed by the label. Store unused Black Flag Home Insect Control Concentrate [product name] in original container, with cap tightly closed in a cool, dry area away from children. See Storage and Disposal for additional storage instructions. [See Black Flag Home Insect Control 1.33 Gal. label for complete [sprayer] [container] [Pump 'N Spray] instructions.]

{Note to Reviewer: Marketing language for 16 oz Black Flag Home Insect Control Concentrate refill}

One 16 oz bottle [will make] [makes] [provides] [yields] [supplies] [up to] 2 Gal. of Black Flag Home Insect Control [or product name] Ready-To-Use Spray.

{Use Instructions for 16 Fl oz Black Flag Home Insect Control Concentrate Refill}

To an empty [product name] [container] [sprayer] remove the pump handle and add [1/2 bottle] [8 oz] of Black Flag Home Insect Control Concentrate [or product name] and fill slowly with water to make 1 Gallon of [Ready-To-Use Spray] spray. Replace [pump handle] [cap] [sprayer] and shake well before using. [Shake sprayer well before each use.] When 8 fl. Oz. of this product are mixed with one gallon of water, the resulting solution contains 0.02% deltamethrin. Apply at the rate of one gallon of finished solution (0.02% deltamethrin) per 1,000 square feet as directed by the label. Store unused Black Flag Home Insect Control Concentrate [product name] in original container, with cap tightly closed in a cool, dry area away from [inaccessible to] children. See Storage and Disposal for additional storage instructions. [See Black Flag Home Insect Control 1.33 Gal. label for complete [sprayer] [container] [Pump'N Spray] instructions.]

[Note: If sprayer does not function properly, remove nozzle cover and check nozzle and holes in rubber component for obstructions. Replace nozzle cover and use as instructed.]

HOW TO USE:

Hold container upright. Do not spray up into air. Use only for spot treatment. Adjust sprayer to [mist or spray] [begin] [desired pattern] [ON [position]]. Hold sprayer 12 inches from the insect or surface to be sprayed. Spray until the surface is slightly moist but not to the point of runoff. Repeat treatment [application] as necessary but

do not apply more than [once per week] [one application per week]. Children and pets may re-enter treated areas after the spray has dried.

Cover all food handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment. Exposed food should be covered or removed.

INDOORS:

To Kill Cockroaches, Ants (including Carpenter Ants), Box Elder Bugs, Carpet Beetles, Centipedes, Crickets, Firebrats, Gnats, Ground Beetles, Houseflies, Mosquitos, Palmetto Bugs, Scorpions, Silverfish, Small Flying Moths, Sowbugs, Spiders, and Waterbugs: Spray directly on insects or indoor areas where these insects may live and hide including in kitchens and bathrooms; behind baseboards; along cracks and crevices; behind and under refrigerators, sinks, stoves, storage areas, and cabinets; around doors and windows; around plumbing; in attics, basements, and crawl spaces; garbage cans; edges of floor coverings and under rugs. Flying insects resting on treated surfaces will be killed.

To Kill Fleas & Ticks: Remove pet bedding and destroy or clean thoroughly. Spray pet resting quarters until moist. Put fresh bedding down once spray has dried. Do not spray animals directly. For best results, pets should be treated with an appropriate flea and/or tick control product registered for use on pets before allowing them to return to the treated area. Also treat rugs and carpets that may be infested.

Horse Stables: To Kill stable flies, horn flies, houseflies, face flies, horse flies, deer flies, mosquitos and gnats: Apply thoroughly to surfaces until wet. Insects coming to rest on treated surfaces will be killed or repelled. Do not treat more than once per week. Do not spray animals or humans, or apply to animal feed or watering equipment. Controls stable flies for up to 4 months.

To Kill Pantry Pests including Rusty, Merchant and Saw-Toothed Grain Beetles, Red and Confused Flour Beetles, Chocolate Moths, Cigarette Beetles, Clover Mites, Cluster Flies, Drugstore Beetles, Elm Leaf Beetles, Rice Weevils, Lesser Grain Borers, Spider Beetles, and Tobacco Moths: Treat exposed stages. Remove all foodstuffs, utensils and shelf paper from area to be treated. Apply spray to shelves and in cracks and crevices behind and under pantry. Allow to dry prior to replacement of shelf paper, food, and utensils. Wash any exposed food handling surfaces and utensils before use.

Webbing Clothes Moth: Apply as a crack and crevice treatment in closets and other storage areas where these pests are found. This treatment will not control moth larvae already on clothes. Do not apply to clothing.

To Kill Bedbugs: Apply to cracks and crevices where evidence of bedbugs occurs. This includes bed frames, box springs, inside empty dressers and clothes closets and carpet edges, high and low wall moldings and wallpaper edges. Do not use this product on mattresses, pillows, bed linens, or clothes. Remove all clothes and other articles from dressers or clothes closets before application. Allow all treated areas to dry thoroughly before use. Not recommended for use as sole protection against bedbugs. If evidence of bedbugs is found in/on mattresses, use products approved for this use.

OUTDOORS:

Spray with wind if breeze is blowing. Do not apply when the wind speed is greater than 15 mph. Do not contaminate fish ponds or apply directly to water. Remove all exposed food and cooking utensils. Cover all food handling surfaces or wash thoroughly after treatment and before use. Do not use on edible crops.

To Kill Ants, Crickets, Sowbugs (Pillbugs), Cockroaches including Asian Cockroaches, Centipedes, Dog Ticks, Fleas, Gnats, Houseflies, Lone Star Ticks, Mole Crickets, Mosquitos, Silverfish, and Waterbugs: Spray directly on insects or outdoor areas where insects live and hide including the perimeter of foundations around homes and residential storage buildings; doors and windows; window screens and frames; light fixtures; eaves; porches; patios, decks; garages; and infested bushes, grass, and weeds. Spray ant trails and hills. Spray ant nests until wet.

To Kill Carpenter Ants or Carpenter Bees: Apply to voids or channels of damaged wood. Treat cracks and crevices of wooden sections between the wood and foundation of the home or outdoor storage structures.

To Kill Wasps, Hornets, Yellow Jackets and Bees: Spray directly at nest openings. Applications should be made late in the evening when insects are at rest.

Houseplants: To Kill Aphids, Japanese Beetles, Lace Bugs, Leafminers, Mealybugs, Mites, and Spider Mites. Remove plants from living and eating areas prior to spraying. Plants can be returned after the leaves are dry. If plants cannot be moved, cover or remove exposed food and food handling surfaces.

Spray both leaf surfaces. Avoid wetting blossoms if possible. Do not apply more than once per week.

Ornamental Garden Insects: To Kill Japanese Beetles, Whiteflies, Aphids, Armyworms, Lace Bugs, Mealybugs, Exposed Thrips, Pavement Ants, Spiders, Spider and Red Mites, Clover Mites and Leafminers.

Spray directly to insects on African Violets, Asters, Azaleas, Begonias, Camellias, Carnations, Chrysanthemums[Mums], Dahlias, Delphiniums, Dogwoods, English Ivy, Euonymus, Fushia, Geraniums, Crassula, Grape Vine, Kentia Palm, Laurel, Marigolds, Rhododendrons, Roses, Rubber Plants, Snapdragons, Stocks, Wandering Jew, Zinnias, and other ornamentals.

Apply spray at least 18 inches from plants. Cover both leaf surfaces thoroughly, but not to the point to runoff. Tender foliage, young plants, and new growth may be damaged if temperatures exceed 90° F. Do not apply to vegetable plants or other plants used for food. Not for use on plants grown for sale or other commercial use.

STORAGE AND DISPOSAL

STORAGE: Store in original container in a cool, dry area away from [inaccessible to] children. [Do not transport or store below 32° F (0°C).] [Protect from freezing.] [Store above 32° F.] If freezing occurs, allow product to thaw and shake well before using [use]. [Some product separation may occur on freezing which is reversible on

shaking]. Freezing does not adversely affect [this product][performance].

DISPOSAL:

Nonrefillable container. Do not reuse or refill this container. If empty: Place in trash or offer for recycling, if available. If partially filled: Do not pour or dispose down-the-drain or sewer. Call your local solid waste agency for disposal instructions.

NOTICE: To the extent consistent with applicable law, the buyer assumes all responsibility for safety and use not in accordance with directions.
