

U.S. ENVIRONMENTAL PROTECTION AGENCY  
 Office of Pesticide Programs  
 Registration Division (7505P)  
 1200 Pennsylvania Ave., N.W.  
 Washington, D.C. 20460

EPA Reg. Number:

9688-332

Date of Issuance:

7/24/15

NOTICE OF PESTICIDE:

Registration  
 Reregistration  
 (under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

CHEMSICO FLEA & TICK PET SHAMPOO

Name and Address of Registrant (include ZIP Code):

Jessica Goldberg  
 Chemsico, Div. of Unite Industries Corp.  
 P.O. Box 142642  
 St. Louis, MO 63114

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Kable Bo Davis, Product Manager 3  
 Invertebrate & Vertebrate Branch 1  
 Registration Division (7505P)

Date:

7/24/15

2. You are required to comply with the data requirements described in the DCIs identified below:
  - a. Pyrethrins GDCI-069001-1290
  - b. Piperonyl Butoxide GDCI-067501-1063

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCIs listed above, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division: [http://www.epa.gov/oppssrrd1/contacts\\_prd.htm](http://www.epa.gov/oppssrrd1/contacts_prd.htm)

3. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSF:

- Basic CSF dated 05/15/2015

If you have any questions, please contact Maggie Rudick by phone at 703-347-0257, or via email at [rudick.maggie@epa.gov](mailto:rudick.maggie@epa.gov).

Then give artificial respiration, preferably mouth-to-mouth if possible. <input type="checkbox"/> Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-332-5553 for emergency medical treatment information.	

**PRECAUTIONARY STATEMENTS****Hazards to Humans and Domestic Animals**

**WARNING.** Causes substantial but temporary eye injury. Causes skin irritation. Do not get in eyes on skin, or clothing. Harmful if inhaled. Avoid breathing product vapor. If available, wear protective eyewear such as goggles or safety glasses. Wear gloves made out of any water proof material.

**Physical or Chemical Hazards**

**Combustible.** Do not use or store near heat or open flame.

**User Safety Recommendations**

User should wash hands before eating drinking, chewing gum, using tobacco, or using the toilet. User should remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**USE ONLY ON DOGS, CATS, HORSES AND FERRETS.** Follow all precautions and directions. [SHAKE WELL BEFORE USE]

For use on dogs, cats, puppies and kittens (over the age of 12 weeks), horses and ferrets for control of Fleas and Ticks. Do not repeat treatment for 7 days. Do not use on puppies and kittens under 12 weeks. Consult a veterinarian before using this product on debilitated, aged, pregnant, or nursing animals. Sensitivities may occur using any pesticide product for pets. If signs of sensitivity occur, bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately.

**HOW TO USE:** Wet the animal's coat for 2-3 minutes with warm water. Wearing waterproof gloves, apply shampoo on head and ears and lather. Then repeat procedure with neck, chest, middle and hindquarters, finishing legs last and paying special attention to the footpads (between the toes) and underbody areas. Wash the head and ear areas carefully, making sure to keep the shampoo out of the animal's eyes. NOTE: A drop of glycerin in each eye before bathing may prevent or reduce irritation if the shampoo gets in the animal's eyes. Pay special attention to the base of the tail, as it is a place frequented by fleas. Fully lather animal and let lather remain on animal for 5 minutes before rinsing thoroughly with water. NOTE: This final step is an important part of grooming procedure.

For small dogs and cats less than 15 pounds, wrapping the animal in a towel for several minutes to absorb moisture is advised. This also will allow dying fleas and ticks to crawl off animal into towel. Dry animal with a clean towel or blow dryer.

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage and disposal.

**Pesticide Storage:** Store in a cool dry area. Always store pesticides in the original container. Store away from food and pet food. **Pesticide Disposal and Container Handling:** Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

List of Optional Marketing Claims

FOR BEST RESULTS USE THIS PRODUCT AS PART OF A COMPREHENSIVE FLEA & TICK TREATMENT PLAN.

An effective flea & tick control program includes simultaneous, coordinated treatment of the home, yard & pet. Treatment and prevention go hand in hand so it's key to treat all 3 areas. This integrated pest management approach involves inspection, cleaning, and targeting eggs, larvae & adults with the appropriate insecticides. Follow up treatments are almost always necessary as flea & tick problems will not be solved with just a one treatment approach.

This product is for Pet Treatment.
