Subject: Notification per PRN 98-10 – Added additional container size and graphics to label; updated copyright date
Product Name: Chemsico Lawn Weed Killer RTU
EPA Registration Number: 9688-341
Application Date: 04/05/2024
Case Number: 561934

Dear Regina M. Ware:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “NOTIFICATION” and placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) lists examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact Robert Mitchell at 202-566-2842 or via email at mitchell.robert@epa.gov.

Sincerely,

NET CONTENTS:

STOP! READ ENTIRE LABEL BEFORE USING

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION. Harmful if swallowed. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

First Aid

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to by a poison control center or doctor. Do not give anything to an unconscious person.

Have the product container or label with you when calling a Poison Control Center or doctor, or going for treatment. You may also contact 1-800-332-5553 for emergency medical treatment information.

Environmental Hazards

This pesticide is toxic to fish and aquatic invertebrates and may adversely affect non-target plants. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

NON-TARGET ORGANISM ADVISORY: This product is toxic to plants and may adversely impact the forage and habitat of non-target organisms, including pollinators, in areas adjacent to the treated site. Protect the forage and habitat of non-target organisms by following label directions intended to minimize spray drift.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Precautions and Restrictions

Do not apply this product in a way that will contact any person or pet, either directly or through drift. Keep people and pets out of the area during application. Do not allow people or pets to enter the treated area until sprays have dried.

Use Restrictions

Broadcast applications greater than 0.75 lbs Mecoprop-p acid equivalent per acre is prohibited. Spot treatment applications greater than 1.2 lbs Mecoprop-p acid equivalent per acre is prohibited

Do not allow spray to drift onto desirable plants since injury may result. Do not apply as a fine mist because of potential for injury to desirable plants. Do not apply when windy. Do not treat when air temperatures exceed 90°F as damage to grass may occur. Application at rates above specified on this label may cause injury to turfgrass. Do not use on Floratam or Bitterblue varieties of St. Augustinegrass. Do not use on carpetgrass, dichondra, lawns with desirable clovers or legumes, vegetables, fruits or ornamentals. Do not spray exposed roots of ornamentals and trees. Do not apply more than 2 applications per year. You must wait at least two weeks between applications. Not for use on turf being grown for sale or other commercial use such as sod, or for commercial seed production, or for research purposes.

Do not apply directly to or near water, storm drains, gutters, sewers, or drainage ditches. Do not apply within 25 feet of rivers, fish ponds, lakes, streams, reservoirs, marshes, estuaries, bays, and oceans. To prevent product run-off, do not over water the treated area(s) to the point of runoff or apply when raining or when rain is expected that day. Rinse applicator over lawn area only.

	Kills the Weeds — Not the Lawn™ *When used as directed		
	Kills 460+ Weeds as Listed		Visible Results in 3 Hours
	Kills by Contact		Kills Listed Weed Roots!

WHERE TO USE

 **Lawns — Treats Bluegrass, Fescue, Zoysia**, Bermuda, Perennial Ryegrass**

**Do not apply to zoysiagrass just emerging from dormancy.

WHEN TO USE

45°F For best results, apply when daytime temperature is between 45°F-90°F.

90°F Above 45°F, the better the weeds will be able to absorb the product.
Lawn damage could happen above 90°F.
