

3906-L

## SQUIRREL REPELLENT

Contents - 11.5 Fluid Oz.

For use in repelling squirrels that damage telephone cables.

### DIRECTIONS FOR USE

- Do not store at temperatures below 60° F.
- Use in temperatures of 50° F. and above.
- Apply only to top surface of cable messenger
- Use a ribbon of repellent 1/8" thick and 1/4" wide. Place only at access points and areas where squirrels use the cable as a highway.
- Use as it comes from the tube. Do not thin.
- Use waterless hand cleaner or non-flammable solvent to remove.
- Follow operating instructions when used in the Malor cable applicator.

#### Composition:

Active Ingredients: Polyalkenes ..... 90%  
Inactive Ingredients: Filler ..... 10%
