SUNBUGGER #6

SPRAY CONCENTRATE

AN INSECTICIDE FOR THE CONTROL OF MOSQUITOES AND LISTED INSECTS

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

HARMFUL IF SWALLOWED: Avoid prolonged breathing of spray mist. Avoid prolonged or repeated contact with skin. Wash thoroughly after handling. Do not contaminate food or feed products. Food utensils such as teaspoons and tablespoons should not be used for food purposes after use with insecticides.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish, aquatic invertebrates, and aquatic life stages of amphibians. For terrestrial uses, do not apply directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Drift and run-off may be hazardous to aquatic organisms in areas near the application site. Do not contaminate water when disposing of equipment washwaters. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not apply Sunbugger #6 in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons. Do not enter treated areas without protective clothing until sprays have dried.

Because certain states may require more restrictive re-entry intervals for various crops treated with this product, consult your State Department of Agriculture for further information.

Written or oral warnings must be given to the workers who are expected to be in a treated area or in an area to be treated with this product. When oral warnings are given, warnings shall be given in a language customarily understood by workers. Written or oral warnings must include the following information: "CAUTION, Area to be treated with malathion (date of application). Do not enter without appropriate protective clothing until sprays have dried." Or in the case of citrus, "Do not enter treated areas to perform activities that involve substantial or prolonged contact with treated foliage for 1 day."

Do not apply directly to water except as specified on this label. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds if bees are visiting the treatment area. Protective information may be obtained from your Cooperative Agricultural Extension Service.

Use only with adequate ventilation. Do not allow contact with treated surfaces until sprays have dried.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

ACTIVE INGREDIENTS	By Wt.
*Malathion: "O,O-dimethyl phosphorodithioate of diethyl mercaptosuccinate	10.00%
INERT INGREDIENTS	90.00%
TOTAL	100.00%

CONTAINS PETROLEUM DISTILLATES

CAUTION

KEEP OUT OF REACH OF CHILDREN

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center immediately. **DO NOT INDUCE VOMITING.** Vomiting may cause aspiration pneumonia. Drink 1/2 to four glasses of milk or water. Do not induce vomiting or give anything by mouth to an unconscious person.

IF INHALED: Remove victim to fresh air. Apply artificial respiration if indicated.

IF ON SKIN: Remove contaminated clothing and wash affected areas with soap and water.

IF IN EYE: Flush eyes with plenty of water at least 15 minutes. Call a physician if irritation persists.

NOTE TO PHYSICIAN: This product may cause cholinesterase inhibition. Atropine is antidotal. 2-PAM may be effective as an adjunct to Atropine.
