

THIS PRODUCT MAY BE SOLD
AND USED FOR COMMERCIAL PURPOSES ONLY.
NOT FOR HOUSEHOLD USE.

Free state --
Finished size 1 x 1 1/2

May be fatal if swallowed or absorbed through
the skin. Avoid contact with eyes. In case of
contact with eyes, wash with soap and water after
flushing and before eating or smoking.

For protection during application, wear a full, long
sleeved shirt and long legged trousers. In addition
wear boots, mud boots or neoprene gloves.

This product inhibits
the metabolic activity in the cytochrome P-450
system, the parasympathetic nervous system
and the sympathetic nervous system. Exposure to this product
also results in food aversion and respiratory symp-
toms which must be treated as separate pathological
entities apart from the cholinergic effects.

Use atropine sulfate to reverse cholinergic symptoms,
and maintain a systematic, symptomatic treatment of
the cardiovascular and respiratory effects, even though
the cholinergic symptoms have ceased. Do not use cen-
tral nervous system depressants. Watch for pulmonary
edema, which may develop in serious cases even after
12 hours. The use of oxygen is recommended in case of
respiratory distress.

Keep out of any body water. Do not apply when weather
conditions favor drift from treated areas. Do not apply
when runoff is liable to occur. Do not contaminate
water by cleaning of equipment or disposal of wastes.

Do not use, pour, spill, or store near heat or open flame.

1. Do not contaminate water, food or
feed by storage, disposal, or cleaning of equipment.
Open dumping is prohibited.

2. Pesticide, spray mixture, or
rinse that cannot be used or chemically reprocessed
should be disposed of according to procedures
approved by Federal, State, or Local disposal
authorities.

3. (a) Reseal container and offer for conditioning or
reuse. (b) Triple rinse (or equivalent) and offer for recod-
itioning or disposal in approved landfill or bury in
safe place.

4. Consult Federal, State, or Local
authorities for approved alternative procedures.

KEEP OUT OF REACH OF CHILDREN

FIRST AID

Professional medical assistance should be secured immediately. Have
patient lie down and keep quiet.

IF SWALLOWED, vomiting should be induced. Administer milk or water
freely, and induce vomiting by giving one dose (1 1/2 oz. or 15 ml) of syrup
of ipecac. If syrup of ipecac is not available, induce vomiting by sticking
finger down throat. Never give anything by mouth to an unconscious
person.

IN CASE OF CONTACT, remove contaminated clothing, and flush skin
and eyes with plenty of water. Wash contaminated clothing with soap
and hot water before reuse.
