

RIVERSIDE FUMAZONE[®] 4.3 NEMATOCIDE

USEFUL FOR THE CONTROL OF CERTAIN PARASITIC NEMATODES

ACTIVE INGREDIENTS:

1, 2-Dibromo-3-Chloropropane	45.0%
Other Halogenated C-3 Compounds	2.4%
INERT INGREDIENTS:	52.6%
TOTAL.....	100.0%

Contains 4.3 pounds of Fumazone per gallon.

* Fumazone is the registered trademark of The Dow Chemical Company.

WARNING: KEEP OUT OF REACH OF CHILDREN

May be fatal if swallowed, inhaled, or absorbed through skin. Avoid breathing of vapors. Avoid contact with skin, eyes and clothing. Do not take internally.

Do not contaminate feed or foodstuffs. Do not store near seeds, feed or food.

Wear goggles and polyethylene gloves when handling material. Wash with soap and water after handling and before eating or smoking.

In case of spillage on person or clothing, immediately remove clothing and flush skin with plenty of water. For eyes, get medical attention. Wash clothing and air shoes thoroughly before reuse.

READ ENTIRE LABEL BEFORE USING THIS PRODUCT: Use of this product in a manner not in accordance with the information on this label may injure or kill humans, domestic animals, wildlife, aquatic life, desirable plants, create excessive and unlawful chemical residues, or produce other undesirable results.

USE PRECAUTIONS

Do not store in or use containers made of plastic, aluminum, magnesium or other alloys. Store in cool place away from dwellings.

After use, always empty and clean applicator thoroughly with kerosene, naphthalene, or fuel oil.

Avoid reinfestation of treated soil by movement of infested soil on tools, equipment, disc, and harrows.

This product is toxic to wildlife. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

DO NOT USE, POUR, SPILL, OR STORE NEAR HEAT OR OPEN FLAME.

GENERAL INFORMATION

RIVERSIDE FUMAZONE 4.3 NEMATOCIDE is intended for application to mineral soil to control the plant parasitic nematodes awl, dagger, lance, lesion or meadow, pin ring, root-knot spiral, sting, stubby root, and stunt in land to be planted to crops listed in use directions.

DIRECTIONS FOR USE

Apply when soil temperatures are 40 to 80 F. at a depth of 6 to 8 inches. Soil should be in good tilth and contain adequate moisture for seed germination. Trash should be well decomposed. Do not treat extremely wet or dry soils nor heavy clay or muck soils.

Apply evenly at a depth of 6 to 8 inches below the normal soil surface. Seal the fumigant in by packing the soil surface with rollers or use light irrigation or some other means.

Use as a preplanting or at planting treatment of soil to be planted to snap beans, cabbage, carrots, cotton, cucumbers, lettuce, melons, peanuts, radishes, summer squash and tomatoes (direct seeded).

For broadcast treatment space injection chisels 12 inches apart and inject RIVERSIDE NEMAGON 4.3 NEMATOCIDE undiluted at 5 gallons per acre as a preplant treatment by soil injection.

For row treatment (40 inch spacing) inject RIVERSIDE FUMAZONE 4.3 NEMATOCIDE undiluted at 1.75 gallons per acre. Plant directly in to treated strips following row application.

For other than 40 inch row spacings reduce the amount to apply per acre to be in proportion to the overall dosage and according to the actual fraction of the acre being treated. One chisel treats a 12 inch swath.

Wait 7 to 14 days before planting.

Do not feed plant parts to livestock. Forage crops grown on treated soil should not be used as feed for dairy animals or animals being finished for slaughter until two years after row treatment or three years after overall treatment. Do not feed, sell, or introduce into commerce hay or hulls grown on treated soil.

CONTAINER DISPOSAL

Destroy all containers when empty by punching holes in them and burying. Do not burn. Do not reuse containers for other purposes.

NOTICE

Riverside Chemical Company warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to Riverside Chemical Company, and buyer assumes the risk of any such use.
