<b>ACTIVE INGREDIENTS:</b>	
*Heptachlor .....	5.00%
Related Compounds .....	1.85%
<b>INERT INGREDIENTS:</b>	
.....	93.15%
<b>TOTAL .....</b>	
<b>100.00%</b>	
*Heptachlorotetrahydro-4, 7-Methanondene	

## CAUTION: KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contact with skin. Contact with skin can cause toxic symptoms. Do not breathe dust. In case of contact with skin, wash with soap and water. Do not contaminate feed and foodstuffs.

Keep children and pets off treated turf until material has been washed into the soil by watering or rain, and the grass is dry.

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed.

Keep out of lakes, ponds, and streams. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes.

Do not apply to any area not specified on the label.

**READ ENTIRE LABEL BEFORE USING THIS PRODUCT:** Use of this product in a manner not in accordance with the information on this label may injure or kill humans, domestic animals, wildlife, aquatic life, desirable plants, create excessive and unlawful chemical residues, or produce other undesirable results.

### ANTIDOTE:

**INTERNAL**—Give an emetic of 1 tablespoonful of mustard in a glass of water. Call a physician.

**EXTERNAL**—In case of spillage on skin wash promptly with soap and water.

**DO NOT CONTAMINATE WATERS USED FOR DOMESTIC CONSUMPTION OR BY ANIMALS, WILDLIFE AND AQUATIC LIFE, OR WATER FOR IRRIGATION PURPOSES.**

### GENERAL INFORMATION

RIVERSIDE 5% HEPTACHLOR GRANULES is useful for the control of many insect pests of golf courses, parks, lawns, ornamental turf, cemeteries, corn, small grains (barley, oats, rye, wheat), and tobacco. Use of this granular material greatly reduces the losses and hazards of contamination caused by the drift associated with dusts or sprays.

### DIRECTIONS FOR USE

**GOLF COURSES, PARKS, LAWNS, ORNAMENTAL TURF, CEMETERIES:** For control of Chiggers, Earwigs, Fleas, and Ticks, apply RIVERSIDE 5% HEPTACHLOR GRANULES at the rate of 37 ounces (2 lbs. 5 ounces) per 5,000 square feet. For control of Ants (including Imported Fire Ants), Asiatic Garden Beetle larvae, Cutworms, European Chaffer larvae, Japanese Beetle larvae, White-fringed Beetle larvae, White Grubs, and Wireworms, apply 74 ounces (4 lbs. 10 ounces) per 5,000 square feet. For control of Armyworms and Mole Crickets apply 90 ounces (5 lbs. 10 ounces) per 5,000 square feet. For control of Green June Beetle larvae and Chinch Bugs apply 110 ounces (6 lbs. 14 ounces) per 5,000 square feet. Immediately after treatment drench treated area by sprinkling. This deposits granules under blades of grass onto the soil and out of contact of pets and children. Do not allow pets or children to use treated areas during treatment or sprinkling, or until completely dry after sprinkling.

**SOIL APPLICATION TO FIELD CROPS:** Unless otherwise specified, make pre-plant soil applications just before or at planting time. Work into the top 3-6 inches of soil as soon as possible after application.

CROP	INSECTS CONTROLLED	LBS. PER ACRE 5% HEPTACHLOR GRANULES	
		Row	Broadcas <sup>1</sup>
CORN	Seed Corn Beetle, Seed Corn Maggots, Wireworms, Cutworms, Japanese Beetle Larvae, Corn Rootworms	20	40
	Grape Colaspis Larvae, White-fringed Beetle Larvae, Corn Billbug	40	60
	Green June Beetle Larvae		60
	Cornfield Ants	20 to 30	30 to 40
SMALL GRAINS (Barley, oats, rye, wheat)	White Grubs and Wireworms		60
TOBACCO	White-fringed Beetle and Wireworms		40 to 60

### CONTAINER DISPOSAL

Do not reuse empty container. Containers should be disposed of by punching holes in them and burying with wastes, or by burning. Stay out of smoke.
