

RIVERSIDE T-MAN
COTTON SEEDLING FUNGICIDE
(Contains 10% Thiram and 10% Terraclor)

ACTIVE INGREDIENTS:

Tetramethyl Thiuram Disulfide
Pentachloronitrobenzene

INERT INGREDIENTS:

TOTAL 100

*Terraclor is a registered trade name of Ciba Chemical Company.

RIVERSIDE T-MAN is a special fungicide dust formulation to be used in the cotton planter hopper box at time of planting to protect cottonseed and seedlings against seed rot, seedling root rot, pre emergence damping off, and post emergence damping-off caused by soil-borne fungi such as Rhizoctonia Solani, Pythium spp., and Fusarium spp.

CAUTION:

KEEP OUT OF REACH OF CHILDREN

Avoid breathing dust. May cause skin irritation. Avoid contact with skin and eyes. Wash hands and face thoroughly after handling. Avoid contamination of foods and foodstuffs. Treated seeds should not be used for feed, food, or oil purposes. Destroy container when empty.

Use at the rate of 9 pounds of RIVERSIDE T-MAN to 100 pounds of cottonseed. Put seed in hopper, add T-MAN as determined by amount of seed put into the hopper box. Mix thoroughly so that each seed will be coated.

WARRANTY

NON-WARRANTY: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
