Thrips on the following:

<u>Asparagus</u>	<u>Corn</u>	<u>Peas</u>	<u>Tomatoes</u>
<u>Beans</u>	<u>Cucumbers</u>	<u>Peppers</u>	<u>Pumpkins</u>
<u>Beets</u>	<u>Lettuce</u>	<u>Potatoes</u>	<u>Blackberries</u>
<u>Cabbages</u>	<u>Squash</u>	<u>Raspberries</u>	<u>Greens</u>
<u>Carrots</u>	<u>Mustard</u>	<u>Spinach</u>	<u>Apples</u>
<u>Cauliflower</u>	<u>Okra</u>	<u>Squash</u>	<u>Peaches</u>
<u>Collards</u>	<u>Onions</u>	<u>Strawberries</u>	<u>Pears</u>

RECOMMENDATIONS

Apply when insects first appear and discontinue use expected to appear.

Apply at the rate of 2-10 pounds per acre, by either hand or the side of the plant. Apply so as to get complete coverage of the foliage and stems, making sure the underside of the leaves are also fully covered. Repeat until control is obtained.

Do not apply within 1 day of harvest.

This dust, if properly applied, controls certain ordinary garden insects that attack above ground. It does not contain sulphur, so it is suitable for squash, cucumbers, cantaloupes, and melons.

20f2

This product is toxic to fish. Keep out of lakes, streams, and ponds.  
Apply this product only as specified on this label. Do not apply when weather conditions favor drift of spray from areas treated. Rinse equipment and containers and dispose of wastes by dumping in non-catch basins away from water supplies. Containers should be disposed by puncturing holes in them and burying with wastes.

NON-WARRANTY

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use.
