BEETLES—For control of Climbing Cutworms and Three-cornered Alfalfa Moths apply 1/2 to 1 pint per acre. For control of Ailoids, Blister Beetles, Masked Green Beetles, Slink Bugs, Two-Spotted Mites, and Velvet Bean Caterpillars, apply 1 pint per acre; for control of bollworms, Cabbage Looper, Fall Armyworms to third instar, and Green Cloverworms, apply 2 pints per acre.
Do not apply later than twice per growing season.
Do not apply later than 20 days before harvest or grazing.

TOBACCO—For control of Green Peach Aphids apply 1/2 pint per acre; for control of Cutworms apply 1/2 to 1 pint per acre. Repeat applications as needed.
CAUTION—When necessary to enter treated tobacco fields within 24 hours after application, protective clothing should be worn. Do not apply within 5 days of picking tobacco or within 15 days of cutting tobacco. Avoid plant juices when pruning or cutting tobacco.

DISPOSAL OF CONTAINER AND WASTE
This container should not be reused for ANY purpose. When empty, it should be rendered useless by punching large holes in the top, bottom, and sides with an instrument such as a pipe or nail, with at least 1 1/2 inches of soil covering. This should be done in an isolated area, away from habitation, and in a location which would not drain into, or cause pollution of lakes, streams, or ponds.

Any spray waste or spillage resulting from the application of this material or the destruction of the container should be neutralized with a caustic solution and buried in a pit with the disposed container.

NOTICE
Riverside Chemical Company warrants that its product conforms to its chemical analysis and is suitable for the uses intended on the label. The product is to be used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use of this product contrary to the directions on the label. Riverside Chemical Company, and buyer assume the risk of any such use.
