DIMETHOATE 4E Systemic Insecticide

Un 'ar ... > Foderal Inserticide, F. ngi ide, and Rodenticide Act, as maended, for the pesticide registered under EPA Reg. No.

ACTIVE INGREDIENT

Dimethoate (0,0-dimethyl S-(N-methylcarbamoyl-

Total 100.0%

Contains 4 pounds Dimethoate per gallon.

EPA REG. NO. 9779-

EPA EST. NO. 9779-

STOP-READ !ABEL BEFORE USING!

#### KEEP OUT OF REACH OF CHILDREN

#### WARNING/AVISO

Si usted no lee ingles, no use este producto hasta que la etiqueta le haya sido explicada ampliamente.

#### STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Contact a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger, or, if available, by administering syrup of ipecac. Do not induce vomiting or give anything by mouth to an unconscious person.

IN CASE OF CONTACT: Immediately flush eyes or skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. See doctor immediately.

SEE LEFT PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

# PRECAUTIONARY STATEMENTS WARNING HAZARDS TO HUMANS AND COMESTIC ANIMALS

Harmful or fatal if inhaled or swallowed or absorbed through the skin. May cause irritation of eyes, nose, throat and skin. Avoid contact with eyes and skin. Avoid breathing vapor or spray mist. Wash thoroughly after handling. In case of contact, flush with plenty of water for at least 15 minutes. Get medical attention. Keep away from domestic animals and foodstuffs. Do not contaminate or apply onto feed or foodstuffs. Do not apply this product in such a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.

NOTE TO PHYSICIANS: Dimethoate may cause cholinesterase inhibition. Atropine is antidotal.

#### **ENVIRONMENTAL HAZARDS**

POISONOUS TO FISH AND WILDLIFE: This product is toxic to shrimp, crab, birds and other wildlife. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

HIGHLY TOXIC TO BEES: This product is toxic to bees. Restrict application to the period after dark when bees are inside the hive or in the early morning before the bees are foraging in the fields. Protective information may be obtained from your Cooperative Agricultural Extension Service.

#### PHYSICAL OR CHEMICAL HAZARDS

Do not use, spill, or store near heat or open flame.

#### GENERAL INFORMATION

DIMETHOATE 4E is useful for control of certain pests of certain fruit crops, nuts, vegetables, field crops, and forest trees. DIMETHOATE 4E may be applied by ground sprayers or by sirplanes, mixing the DIMETHOATE 4E in water to form an emulsion spray solution. To make the spray solution, half fill the spray tank with water, agitate, add the proper amount of DIMETHOATE 4B and then fill the spray tank with water while still agitating. Continue to agitate during use.

When applying with ground sprayers, calibrate so as to apply the recommended amount of DIMETHOATE 4E in not less than 3 gallons of water per acre unless directed otherwise. Airplanes should spray the recommended amount of DIMETHOATE 4E in 3 to 10 gallons of water per acre unless directed otherwise. Always use sufficient water for adequate coverage of the crop foliage. The dosages given under DIRECTIONS FOR USE are the amounts of DIMETHOATE 4E to be applied per acre treated per application. Repeat application as necessary, unless otherwise directed in DIRECTIONS FOR USE. Where a dosage range is given use the lower rate on small or young plants or with light insect infestations; use the higher rate on large or more mature plants or with heavy insect infestations. The hazards and precautions for handling DIMETHOATE 4E in this container are equally applicable to it after dilution with water for spray application.

#### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

#### RE-ENTRY STATEMENT

Do not enter treated areas without protective clothing until sprays have dried. Because certain states may require more restrictive re-entry intervals for various crops treated with this product, consult your State Department of Agriculture for further information.

REQUIRED CLOTHING AND EQUIPMENT FOR APPLICATION.

#### Ground Personnel:

All applicators, flagger. And all personnel involved with the mixing, loading, and transferring operation as a wear the protective clothing and equipment enumerated below. Pilots are the protective clothing and equipment to be soon are as follows:

- a. Impermeable gloves (for example, rubber or plastic covered reinforced gloves).
- b. Boots or boot covers.
- c. Long-sleeved shirt and long pants.
- d. Wide-brimmed hat.
- e. Respirators must be worn by flaggers and mixer loaders.

#### Aerial Application:

Automatic flagging devices should be used whenever feasible.

If human flaggers are employed, they must wear the protective clothing and respirator specified on this label.

#### NOTICE TO CROP OWNERS

Written or oral warnings must be given to workers who are expected to jetto a treated area or in an area about to be treated with this product. In case of accidental exposure, follow the information given under "STATEMENT OF PRACTICAL TREATMENT" and have exposed person(s) see a physician. When oral warnings are given, warnings shall be given in a language customarily understood by workers.

Oral warnings must be given if there is a reason to believe that written warnings cannot be understood by workers. Written warnings must include the following information:

#### WARNING

Area treated with Dimethoate on (date). Do not enter without appropriate protective clothing.

In case of accidental exposure, immediately remove contaminated clothing, wash the affected area, contact your supervisor, and have him take you to the doctor.

#### STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD, OR FEED BY STORAGE OR DISPOSAL.

#### STORAGE

Store in a dry location away from children, animals, foods, feeds, and other agricultural chemicals. Keep container closed when not using. Do not allow water into container as this may cause deterioration of product.

Handle in accordance with information given under "PRECAUTIONARY STATEMENTS."

Do not store under conditions where temperatures may exceed 120°F or be below 45°F.

Keep storage area locked when not in use.

In the event of spillage or leakage, soak up material with absorbent clay, sand, sawdust, or other absorbent material. Scrape up and dispose of in accordance with information given under "PESTICIDE DISPOSAL." Repackage and relabel useable product in a sound container.

In case of fire or other emergency, report at once by toll-free telephone to 800-424-9300.

#### DISPOSAL

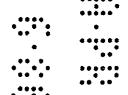

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. "..." Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pestivide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or by other procedure approved by state and local authorities.
