CAUTION KEEP OUT OF REACH OF CHILDREN

May cause irritation of nose, throat, eyes and skin. Do not breathe dust. In case of skin contact wash with water; for eyes, wash copiously with water and get medical attention. Do not reuse containers. Destroy by burying with waste.

This product is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

IMPORTANT: Keep away from fire and sparks. Store in a cool, dry place. Do not allow to become wet or overheated in storage. This may bring on chemical changes which will impair the fungicidal effectiveness of this fungicide, and may also generate flammable vapors. Keep container closed when not in use.

RECOMMENDATIONS

Potato Seed-Piece Fungicide Dust is a special fungicide dust formulation for application on whole or cut potato tubers to protect them from seed-piece decay caused by fusarium seed piece decay (*Fusarium sambucinum*, and seed born common scab).

DIRECTIONS FOR USE

Use 1 lb. of Potato Seed-Piece Fungicide Dust per 100 lbs. of whole or cut potato seed-pieces. Apply the dust in a manner such that the entire surface of the seed-piece becomes thoroughly covered with the fungicide dust. Place potato seed pieces in clean containers, and plant as soon after treatment as possible. Spread in a cool dry place if held before planting. Do not use treated seed potatoes for food or feed purposes.
