MUNI-X CONCENTRATED I

FOR CONTROL OF COCKROACHES • WATERBUGS • BEDBUGS • FLOUR BE
ANTS • SILVERFISH • MOTHS AND CERTAIN OTHER C

FOLLOW DIRECTIONS CAREFULLY FOR BE

Can be used as an industrial or household insecticide. It is non-toxic, non-odorous, and will not stain when used properly.

Application: Some discoloration may result on certain types of wall surfaces or water base paints. Apply first to small hidden areas as a test to avoid discoloration. Simply load the sprayer with this concentrate...

FLIES, MOSQUITOES, GNATS AND CERTAIN OTHER SMALL FLYING INSECTS: For killing flies and mosquitoes, spray into the air during the premises with mist. Infested areas should be kept free of food with a mist of MUNI-X. Keep all open food covered with plastic equipment. The space should be left closed for at least 24 hours after treatment. Cover all food stuffs to prevent contamination. Sweep up and dispose of insect piles also helps.

CLOTHES MOTHS, CARPET BEETLES: For control of clothes moths and carpet beetles, spray into cracks, crevices, and other hiding places. Wetted clothing should be sprayed thoroughly from a distance. Repeat application as necessary.

ANTS: To control these insects, spray into cracks and crevices where they are crawling. Pay particular attention to areas where they are nesting. Repeating application as necessary.

BEDBUGS: Take measures to prevent bedbugs from entering the home. Spray solution in cracks, crevices, and other points where they are likely to hide. Repeat application as necessary.

COCKROACHES, WATERBUGS, SILVERFISH: Spray into cracks and crevices. Lightly working this spray into the cracks and crevices.
