

~~(Hofa)~~

**DIRECTIONS**

Use this outdoor fogicide according to the directions of the equipment manufacturer.

The amount to use and rate of delivery will vary with different types of equipment.

When used in a Thermal Generator, for outdoor fogging the area to be treated should be completely covered with visible fog.

Should be applied as a for or fine mist. Completely envelop area to be treated in accordance with the equipment manufacturer's recommendation.

**MOSQUITOES, GNATS AND NIGHT FLYING INSECTS**

Completely cover area to be treated with visible fog or fine mist. Special attention should be given to directing the spray into insect breeding sites such as weeds, edges of swamps, and zones of stagnation, at the rate of about two gallons per acre.

**FLIES:**

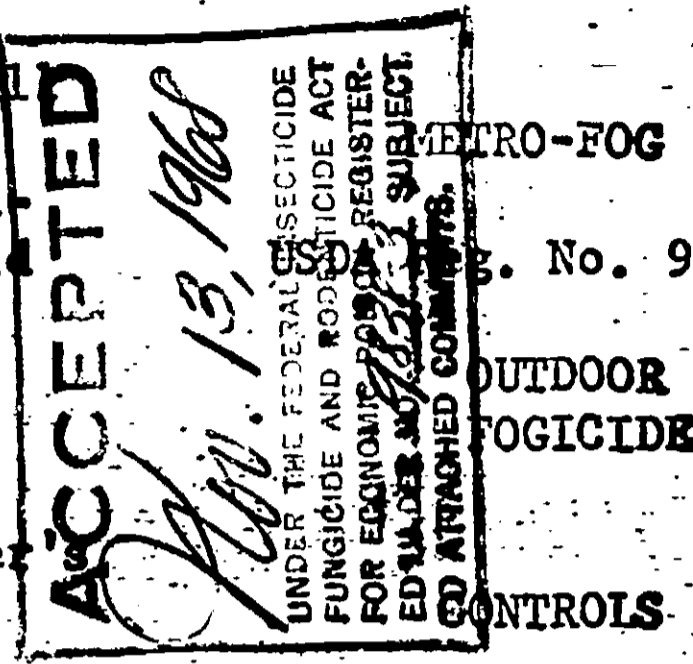

Completely cover area to be treated with visible fog or mist. Use fog for controlling flies in critical areas such as stables, barns, and rubbish piles. Do not use in Dairy Barns or on livestock intended for slaughter. Apply at the rate of about two gallons per acre. Repeat applications should be effected as often as is necessary.

**MOSQUITO LARVAE CONTROL**

Apply at the rate of two gallons per acre. Take Care to avoid heavy applications to ornamental plants and when used in shallow water. Application should be made so that insect breeding sites are completely covered with visible fog in areas such as weeds, edges of swamps, and zones of stagnation, at the rate of about two gallons per acre. Repeat applications should be effected as often as is necessary.

**RAPID KNOCKDOWN HIGHLY STABLE  
LOW ODOR - HIGH KILLING POWER**

REG. No. 9838-X

OUTDOOR FOGICIDE

CONTROLS

**MOSQUITOES, FLIES, GNATS**

and certain other small Flying Insects.

**ACTIVE INGREDIENTS 100%**  
Petroleum Distillate  
Malathion(0,0-dimethyl dithiophosphate of dimethyl mercaptosuccinate)  
Beta-butoxy beta'-thiocyano diethyl ether

Technical Piperonyl Butoxide \*  
Pyrethrins  
\* Consist of (butylcarbityl) (6-Propylpiperonyl) ether and related compounds.

**CAUTION: Keep Out of Reach of Children**  
(See side panel for additional cautions.)

**SOLD BY**  
Continental Research Corp.  
P.O. Box 8428  
St. Louis(Olivette)Missouri  
63132

Contains Lethane for fast knockdown and Malathion for high kill and Synergize Pyrethrins for lasting effect. This insecticide is very stable, even in the very high temperatures present in Thermal fog generators.

Establishing a preventative maintenance program will aid in controlling the named insects and their breeding areas.

Metro-Fog is designed for use by municipalities such as golf courses, outdoor theatres and similar places where outdoor fogging control is required.

When using Thermal Fogging machines, maximum effectiveness is obtained in still air with thermal air currents absent. Fogging should be done from windward side and should be performed so that operator may continually move away from fog.

**CAUTION**

Harmful if swallowed. Avoid prolonged breathing of spray mist. Avoid repeated or prolonged contact with skin. Wash thoroughly before eating or smoking. Avoid contamination of feed and food-stuffs. Keep container tightly closed and away from heat and open flame. Avoid contact with skin, eyes and clothing. If spilled on skin, wash with soap and water and change clothes. Do not reuse containers. Destroy when empty. Not intended for household use.

This product is toxic to fish. Keep out of lakes, streams or ponds. Apply this product only as specified on this label.
