

[9852-6]

Remove protective cap. Holding container upright and away from you, tilt sprayhead until tip engages rim of valve mounting cup. Valve will remain in open position for total release of contents. Place in upright position in an elevated location, if possible, such as on a shelf or table. Place newspaper under can to protect surface immediately around area of release.

Release the contents of this can for each 5,000 cubic feet of unobstructed space. Use additional units for remote areas or where free flow of fog is not assured.

Close doors and windows, and turn off fans and air conditioners. Remove pets, and cover or remove fishbowls. Cover exposed foods, dishes, and food handling surfaces. Product can be used around dishes and utensils if they are protected from direct contact while spraying. Open cabinets and doors to expose spaces to be treated. Extinguish all flames except pilot lights, and release can at least 6 feet away from pilot lights. For best results, leave treated space undisturbed for two hours or more. After treatment, open doors and windows and allow to ventilate for 30 minutes.

ACTIVE INGREDIENTS: 15

Pyrethrin 0.50  
Technical Pyrethrin 1.00  
Butoxide\* 1.00  
Petroleum Distillate 10.00

INERT INGREDIENTS: 85

\*Equivalent to 3.2% of  
total weight of active  
ingredients.  
15 propylparaben, 1.00  
and to 0.80% of related  
compounds.

Contents under  
pressure. Do not puncture or  
re-ignite container. Do not  
store above 120 degrees F.
