

[9852-13]

SHAKE WELL BEFORE USING
Remove cap, aim valve from about 12 inches from area to be sprayed, and depress button. Avoid heavy deposits on finished surfaces.

To control **ANTS, COCKROACHES** and **SILVERFISH** apply a continuous visible film of Drione underneath and behind stoves, sinks and refrigerators. To control **FLEAS** in animal quarters treat surfaces, particularly bedding. Also treat around and behind molding, shelving, baseboards, pipe openings, cracks, crevices and other areas where these insects may hide. Treat ant trails and areas where they enter. A deposit of Drione, if undisturbed, will continue to kill cockroaches for a period of several weeks through dessicant action. Repeat application when effectiveness diminishes.

To control **BED BUGS** take bed apart and treat cracks, joints and interior of framework. Mattress should be treated, especially tufts, folds and edges.

WARNING: Contents under pressure. Do not store above 120 F. Prolonged exposure to sunlight or other heat sources may cause bursting. Do not throw into fire or incinerate. Avoid breathing of vapor. Avoid contact with skin. Do not spray on exposed foods.

Active Ingredients:	
Pyrethrins	0.1%
Piperonyl Butoxide Technical*	1.0%
Silica Gel	4.0%
Petroleum Distillate	4.9%
Inert Ingredients	90.0%
	100.0%

*Equivalent to 0.8% of (butyl carbityl) (6-propylpiperonyl) ether and 0.2% of related compounds.

FOOD HANDLING ESTABLISHMENTS - Places other than private residences in which exposed food is held, processed, prepared, or served

FOOD AREAS - APPLICATION LIMITED TO CRACK AND CREVICE TREATMENT ONLY Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation also would be considered a food area).

Apply in small amounts directly into cracks and crevices using injection tube in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where roaches, ants and silverfish hide.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

SERVING AREAS Facilities where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared or held.

Apply as a spot treatment to selective surfaces such as baseboards, under elements of construction into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed.)

SHAKE WELL BEFORE USING

Remove cap, aim valve from about 12 inches from area to be sprayed and depress button. Avoid heavy deposits on finished surfaces.

To control ANTS, COCKROACHES and SILVERFISH apply a continuous visible film of Drione underneath and behind stoves, sinks and refrigerators. To control FLEAS in animal quarters, treat surfaces, particularly bedding. Also treat ground and behind molding, shelving, baseboards, pipe openings, cracks, crevices and other areas where these insects may hide. Treat ant trails and areas where they enter. A deposit of Drione will disturb cockroaches for a period of several weeks through desiccation. For more frequent application when effectiveness diminishes.

To control bed bugs, take bed apart and treat cracks, joints and interior of framework. Mattress should be treated especially at the folds and edges.

WARNING - Do not inhale powder. Do not store above 120° F. Fire and exposure to sunlight or other heat sources may cause bursting. Do not throw into fire or incinerate. Avoid breathing of vapor. Avoid contact with skin. Do not spray on food and foods.
