

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

To operate, remove protective tab and squeeze trigger, being sure to aim spray opening at the location to be sprayed. Direct spray at insects whenever possible and under eaves, into nests, cracks, holes or crevices, wherever insects are noticed. Spray for about 10 seconds or until surface is moist from insecticide. To prevent entrance of insects into the house spray around points where outside plumbing, faucets enter the house and into any cracks or crevices in foundation as well as along sills and ledges.

Kills Wasps, Hornets and Yellow Jackets: This spray is fast acting when insects are hit. Allow about 24 hrs for those insects which were not directly hit by spray to leave the area. If insects should return to the treated area, spray again. This container delivers a stream type spray, making it possible for the operator to stay back from places sprayed. This formulation utilizes pyrethrins, piperonyl butoxide and a carbamate type insecticide, a combination particularly effective on this class of insects

STORAGE AND DISPOSAL

Replace cap, wrap container in several layers of newspaper and discard into trash. Do not incinerate or puncture.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: May be harmful if swallowed. Avoid breathing spray mist. Avoid contact with eyes, skin or clothing. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or poison control center immediately. Do not induce vomiting unless directed by a physician. Vomiting may cause aspiration pneumonia. **IF INHALED:** Remove affected person to fresh air. Apply artificial respiration indicated. **IF IN EYES:** Flush with plenty of water. Contact a physician if irritation persists. **IF ON SKIN:** Remove contaminated clothing and wash affected areas of skin with soap and water. Contact a physician if irritation persists.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic invertebrates. Do not apply directly to water or wetlands. Do not contaminate water by cleaning of equipment or disposal of wastes. This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

PHYSICAL AND CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Exposure to temperatures above 120° may cause bursting. Buyer assumes all risks of use, storage or handling of this material not in strict accordance with directions given herewith.
