DIRECTIONS FOR USE

Spray infested surface until wet.

Roaches, Ants, Silverfish, Spiders, Crickets: Spray heavily into all cracks, around baseboards and other places where these insects hide. Also behind and beneath cabinets, refrigerators, sinks, stoves, etc. Spray other localized areas infested with these pests. Repeat treatment as required.

Carpet Beetles: Spray edges of carpeting and under carpeting and rugs. Make localized application to the floor and baseboards. Spray directly into cracks, closets and infested areas of shelving. Repeat as necessary.

Brown Dog Ticks: Thoroughly spray sleeping quarters of animals. Spray infested areas around baseboards, windows and door frames, wall coverings. Applications should be repeated as necessary. Fresh bedding should be placed in animal quarters following treatment. Do not treat animals with formulation.

Flies, Mosquitoes, Wasps and Flying Moths - Outdoors: For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects alight or congregate.

Fleas, Chiggers, Ants - Outdoors: For treatment of localized infestations of these insects in outdoor areas, spray weeds and bushy non-crop areas around the home thoroughly. Avoid spraying desirable plants. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as reinfestations occur.

RESIDUAL SURFACE SPRAY
with **PYRENONE[®]/DIAZINON[®]**
LIQUID

EPA Reg. No. 9852-21

A Quick Acting Surface Spray for Indoor and Outdoor Use in Homes, Institutions, Restaurants and Food Processing Plants.

boxing) preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas (when food is exposed and facility is in operation also would be considered a food area).

Apply in small amounts directly into cracks and crevices using equipment capable of delivering a pin stream of insecticide in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases, conduits, motor housings, junction or switch boxes where roaches, ants, silverfish, spiders and crickets hide.

"Prior to application de-energize electrical equipment". After application, allow time for oil to evaporate before starting motors or placing switches in the 'on' position.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

APPLICATIONS OF THIS PRODUCT IN THE FOOD AREAS OF FOOD HANDLING ESTABLISHMENTS, OTHER THAN AS A CRACK AND CREVICE TREATMENT ARE NOT PERMITTED.

SERVING AREAS-Facilities where prepared foods are served, such as dining rooms, but excluding areas where foods may be prepared or held.

Apply as a spot treatment to selective surfaces such as baseboards, under elements of construction into cracks and crevices. Avoid treating surfaces likely to be contacted by food. (Do not apply when facility is in operation or foods are exposed.)
