DIRECTIONS—Continued

SPACE SPRAY: To control flies, gnats, mosquitos and other flying insects, close doors and windows before spraying. Apply 1 gallon of Southern Mill Spray per 50,000 cubic feet of space, allowing doors to remain closed for at least 15 to 20 minutes after treatment. Repeat as required for continued control.

CAUTION:

Do not apply directly to food products. Avoid excessive inhalation of spray mist, contact with skin or eyes. Do not pour, spray or store near fire or flame. Harmful if swallowed. Unknown as to quantity, timing or method of application can cause damage or injury to estimate, persons, property or crops or cause residues in excess of official tolerances.

NOTICE

The above directions are based upon use under normal and reasonably foreseeable conditions. If the directions are followed and precautions on this label observed, available research indicates that this product will give satisfactory results. However, because climatic, geographic, and other conditions of use will vary widely, the seller makes no warranty or representation, expressed or implied, concerning this product or its use except that it conforms to the chemical description on the label and no person is authorized to make any other representations upon their behalf. The seller shall not be held responsible for damages resulting from the handling, storage, or use of this product for any reason except the failure of the material to conform to the chemical description on this label. Damages, if any, which may result from the failure of this product to conform to the description on this label shall be limited to direct damages but shall not include consequential damages such as those resulting from crop injury or failure to give adequate control.
