Rite-Off, Inc.
105 Park Avenue
Seaford, DE 19973

Attention: Andrew Kieniksman

Subject: Rite-Off Germicidal Foam Cleaner
EPA Registration Number 9852-57
Your Submission Dated November 21, 1995
EPA Received Date November 21, 1995

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, to revise the Confidential Statement of Formula and product labeling, is acceptable provided that you make the following labeling revisions:

1. Place the statement, "Directions for Use", directly above the signal word "Warning".
2. Under the "Note to Physician" section, delete the statement " Measure against..... may be needed".
3. Place the phrase "Keep Out of Reach of Children" directly above the signal word "Warning".
4. Delete the terms "milk" and "egg whites" from the product labeling.

The revised Confidential Statement of Formula dated November 21, 1995, is in compliance with PR Notice 91-2, it agrees with the label claim and is acceptable.

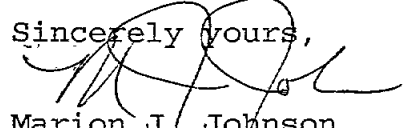

The two solvents used in this formulation are accepted for use in this product and they are properly identified.

A stamped copy of the labeling is enclosed for your records. Please Submit one (1) copy of the final printed label prior to release of the product or shipment.

GERMICIDAL FOAM CLEANER

It is a violation to Federal Law to use this product in a manner inconsistent with its labeling.

This product has been designed specifically for Household and Institutional cleaning and disinfecting in Homes, Nursing Homes, Hospitals, Offices, Schools, Motels and Hotels.

When used as directed, it is formulated to disinfect inanimate hard surfaces (such as walls, sink tops, tables, chairs, telephones, bathrooms, shower stalls, bathtubs, hampers, cabinets, and bed springs.) In addition, it deodorizes those areas which generally are hard to keep fresh smelling (such as garbage storage areas, empty-garbage bins and cans, basements, restrooms and other areas which are prone to odors caused by microorganisms.)

When used as directed, this foam cleaner demonstrates effective disinfection against Staphylococcus aureus, Salmonella choleraesuis and Pseudomonas aeruginosa, thus meeting requirements for hospital use. Efficacy tests have demonstrated that this is an effective one-step cleaner-disinfectant in the presence of organic soil (5% blood serum).

This product is fungicidal against Pathogenic fungi (T. mentagrophtes) when used as directed on hard surfaces found in the bathroom, shower stall, and locker room, or other clean hard non-porous surfaces commonly contacted by bare feet.

DISINFECTION, DEODORIZATION AND CLEANING DIRECTIONS:

To disinfect hard, non-porous surfaces (such as bathroom tiles, wall, fixtures, shower stalls, sinks, bathtubs, hampers, tables, and chairs), proceed as indicated. Shake can before using. Hold 6-8 inches from surface to be treated. Spray area until it is covered with a white foam. Allow foam to penetrate and remain wet for 10 minutes. No scrubbing necessary. Wipe off with a clean cloth, mop or sponge. The product will not leave grit or soap scum. For heavily soiled areas, remove gross soil before treatment.

MOLD & MILDEWSTAT: To control mold and mildew on pre-cleaned, hard non-porous surface (such as floors, walls, table tops) spray surfaces to be treated, making sure to wet completely. Let air dry. Repeat application at weekly intervals or when mildew growth reappears.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMAN AND DOMESTIC ANIMALS-WARNING: Causes eye and skin irritation. Do not get in eyes, skin or on clothing. Harmful if swallowed.

STATEMENT OF PRACTICAL TREATMENT: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage. Measure against circulatory shock, respiratory depression and convulsion may be needed.

PHYSICAL OR CHEMICAL HAZARDS: Contents under pressure. Do not puncture. Do not use or store near heat or open flame. Exposure to temperature above 130° F may cause bursting. Never throw container into fire or incinerator.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage disposal. Open dumping is prohibited. Do not reuse empty container. Wrap container and put in trash collection.

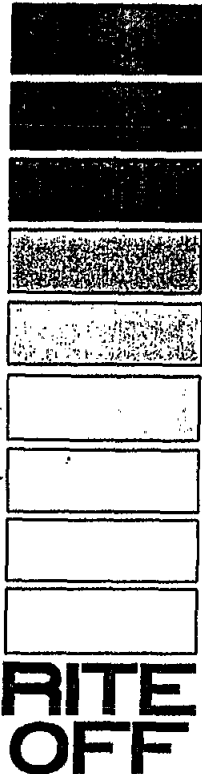

KEEP OUT OF REACH OF CHILDREN
