- d. Under the Statement of Practical Treatment for "If Swallowed" add the following:

Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

- e. Revise the statement under Environmental Hazards to read as follows:

Do not contaminate water by cleaning of equipment or disposal of wastes.

- f. On the front panel at the bottom of the page add the following sentence:

CAUTION: See back panel for additional precautionary statements.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

ENVIRONMENTAL HAZARDS

Do not contaminate water when disposing of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Keep away from heat, sparks, and open flame. Do not puncture or incinerate container. Exposure to temperatures above 100 F may cause bursting. Extremely flammable.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR BARN USE. KEEP CONTAINER UPRIGHT.

Product will kill Anas, Cockroaches, Crickets, Fleas, Head Lice, Mosquitoes, Lice, Fleas, Sawtoothed Grain Beetles, Small Flying Notox and

Wasp and Hornet, and rod-handling equipment. Open cabinets and doors and close them. Shut off fans and air conditioners. Put out all open fires. Close doors and windows. Point valve opening away from you and eyes while spraying. Use one unit for each 5,000 cubic feet of treated area. Use additional units for remote rooms or where free flow of air is not assured. Do not remain in the area during treatment and ventilate thoroughly before re-entry.

SPRAY VALVE: To lock valve in open position for automatic discharge, push valve button all the way down, hooking the catch. Then place fogger head or valve in the center of the room with valve locked open, placing 2-3 layers of newspaper or pad under fogger. Leave building closed and building closed for four hours before airing out. Open all doors and windows and allow to air for 30 minutes. Repeat spraying in two weeks, or when necessary.

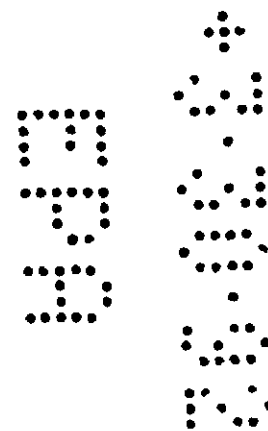

All Ticks and Fleas: Old bedding should be removed and replaced with clean bedding after treatment. Pet's should be treated with a sterilized product for flea and tick control in conjunction with this treatment.
