### USE IN ACCORDANCE WITH DIRECTIONS, WARNING AND CAUTION

**WARNING:** DO NOT spray or allow to drift onto desirable flowers, trees, shrubs, vegetables, or into lakes or streams. DO NOT store near fertilizer, fungicides, insecticides or seeds.

**CAUTION:** DO NOT get in eyes or on the skin. If spilled on skin, wash off immediately with warm water and soap. Flush eyes with clear water. Avoid any inhalation of spray mist. Avoid contamination of feed, food-stuffs, streams or other water sources. Keep beyond reach of children and domestic animals. Keep livestock off treated areas. Wash hands after using. Harmful if swallowed.

**ANTIDOTE:** If taken internally, induce vomiting and call a physician at once.

**GENERAL INFORMATION:** Selectar No. 1 is useful for selective post-emergent weed control, particularly for grassy weeds. Its phytotoxic properties are quickly inactivated on contact with soil. It is a combination of herbicide and surfactant. It is unnecessary to add any other surfactant to the spray solution. Best results are obtained on young actively growing weeds at air temperatures above 50 degrees F.

**MIXING INSTRUCTIONS:** Selectar No. 1 must be thoroughly dissolved. Fill the spray equipment reservoir about half full with water and add the required amount of herbicide with agitation. Finish filling the reservoir with water and apply. After use, clean equipment thoroughly by flushing with water. Do not store spray solution in tank for a prolonged period.

**CAUTION:** Harmful if swallowed. Avoid contact with skin. Avoid breathing spray mist. Wash hands after using. Avoid storage near feed or food products. Keep children and domestic animals off treated areas until this material has washed into the soil.

**CONTAINER DISPOSAL:** Do not reuse empty container.

**NOTICE:** Use of this material in a manner, or at a rate other than in accordance with the directions may result in plant injury, excessive residues, or other undesirable results. Shelley Equipment Company makes no express or implied warranties, other than specified on the label.

# SELECTAR NO. 1

## KILLS NUTGRASS (Nutsedge) SANDBUR

### ACTIVE INGREDIENT:

Monosodium Acid  
Methanearsonate\* . . . . . 34.8%

INERT INGREDIENT: . . . . . 65.2%

\*Total Arsenic, all in water soluble form  
pressed as elemental . . . . . 16.1%

\*Product contains 1 lb. MSMA per quart.

### CAUTION:

KEEP OUT OF REACH OF CHILDREN.  
See Side Panel for additional cautions.  
READ ENTIRE LABEL BEFORE USING.

ONE PINT

### DIRECTIONS FOR USE:

**LAWN AND ORNAMENTAL TURF SELECTAR NO. 1** is useful for control of Nutsedge, Dallisgrass, Sandbur, Bahia-Grass, Chickweed and Wood Sorrel with little or no injury to good lawn grasses. On new lawns, do not treat until after three mowings. Good grasses may be temporarily discolored. Zoysia, Bluegrasses and Bermuda are quite tolerant. Do not use on St. Augustine or Centipede.

Mow lawns 1 to 1½ inches high before treatment. Mix 2 fluid ounces (4 tablespoons) of SELECTAR NO. 1 in 5 gallons of water and apply to an area of 1,000 sq. ft. Spray thoroughly to wet all undesirable plants. Repeat applications 10 to 14 days apart may be needed for good control.

### NON-CROP

SELECTAR NO. 1: is useful for control of Nutsedge, Johnsongrass, Barnyard Grass and other weeds on storage yards and certain other weeds on drainage ditchbanks, right of ways, fence rows, and similar non-crop areas.

MIX SELECTAR NO. 1: at a rate of 2 to 5 quarts in 100 gallons of water. Spray unwanted vegetation thoroughly to just short of run-off. Any spray equipment that gives good coverage may be used. If regrowth occurs, reapply as required.

DO NOT CONTAMINATE WATERS USED FOR DOMESTIC CONSUMPTION OR BY ANIMALS, WILDLIFE, AND AQUATIC LIFE, OR FOR IRRIGATION PURPOSES.

DO NOT FEED TREATED FOLIAGE TO LIVESTOCK OR GRAZE TREATED AREAS.
