**A SELECTIVE DALLIS GRASS DESTROYER**

**FOR CONTROL OF DALLIS GRASS AND OTHER WEEDS IN BERMUDA OR ZOYSIA TURF**

AMA+2 kills Dallis Grass, Bull Grass, Sedge, Lemon Grass. Kills Chickweed, Dandelion, Plantain, Knotweed, Purslane, Spotted Spurge, Large Leaf Spurge, Pennywort, Beygar Weed and many others.

AMA+2 is best to apply early summer after Dallis Grass has come up. Since all seeds do not germinate at the same time, it will be necessary for one or more additional treatments at 10 to 14 day intervals.

DO NOT USE ON St. Augustine, Carpet, Centipede or Bent Grass. Should the Bermuda or Zoysia Turf discolor, normal color will return in a few days.

**DIRECTIONS FOR USE**

1. Be sure soil is moist before treatments. During dry spells, water thoroughly before making applications.
2. Normal rainfall (4-6 hours following application) will not adversely affect results. Resume keeping soil moist day after application and especially during hot, dry weather, if possible.
3. NEW TURF should NOT be treated until the third mowing.
