

LEFT SIDE LABEL

Directions For Use

1. For routine cleaning and deodorizing -

Use 1 oz. Force per gallon of water.

2. For cleaning, deodorizing and sanitizing -

Use 2 oz. Force per gallon of water.

3. For cleaning, deodorizing and disinfecting -

Moderate duty cleaning -

Use 2 oz. Force per gallon of water.

Heavy duty cleaning, porous surfaces -

As a first step remove heavy soil deposits using 2-4 oz. Force per gallon of water as required. Then use 2 oz. Force per gallon to effectively disinfect and assure complete soil removal.

4. For hospital applications -

Use 3 oz. Force per gallon of water.

Do not mix Force with soap or other detergents.

Force needs no clear water rinse. After applying, simply wring out mop or cloth and wipe off excess Force solution. At a dilution of 2 oz./gallon, surfaces will be clean, bright and disinfected.

Force will not harm any surface on which it is recommended.

CAUTION: Harmful if swallowed. Avoid contact with skin and eyes. In case of contact flush with large quantities of water. If irritation persists get medical attention. Avoid contamination of food.

KEY-CHEM

KEY-CHEM[®]

ACCEPTED
MAY 5 0 1969
UNDER THE FEDERAL INSECTICIDE
ACT AND REGULATIONS THEREUNDER
FOR THE CONTROL OF PESTS
AND DISEASES
7-169-1

CAUTION - DO NOT TAKE INTERNALLY.

HARMFUL IF SWALLOWED. Do not get on skin, into eyes or on clothing. Wear rubber gloves, and goggles or face shield, when handling. In case of contact with skin, wash well with soap and water. In case of contact with eyes, flush promptly and thoroughly with clear water. In case of ingestion or contact with eyes, secure immediate medical attention. Remove and wash contaminated clothing before reuse.

DIRECTIONS FOR USE—This material can be used to clean, disinfect, or deodorize all painted, metal or tile surfaces and all types of floors in industrial facilities. It may be applied with an atomized spray or by hand.

This material should be used as a disinfectant in concentrations of 1 oz. of product per gallon of water. When KEY-CHEM 503A is used on equipment, utensils, or other surfaces that may come into contact with food products, use a potable water rinse after treating such surfaces with KEY-CHEM 503A. (DO NOT MIX WITH SOAP OR ANIONIC DETERGENTS)

FOR INDUSTRIAL USE ONLY.

STORE IN A DRY PLACE — KEEP CONTAINER COVERED
