IRT SACKS
UNION CAMP CORPORATION
233 BROADWAY
NEW YORK, N. Y. 10007

Based on Outer Ply of Sack

Active Ingredients:	
*Piperonyl Butoxide Technical	0.33%
Pyrethrins	0.033%
Inert Ingredients:	
Kraft Paper	
Starch or Protein	
Clay	99.637%
	<hr/>
	100.000%

*Equivalent to .264% (Butylcarbityl) (6-propylpiperonyl) ether and .066% related compounds.

Active ingredients above indicate residue after 5 months' storage of IRT Sacks originally treated with 50 ± 10 mg/ sq. ft. piperonyl butoxide technical, and 5 ± 1 mg/sq. ft. pyrethrins on the outer surface of the outer ply of basis weight 60 lb. per 3,000 sq. ft. ream. Treatment increases resistance to penetration by insects for a period of 9 to 12 months under normal shipping, handling and storage conditions. Tight end closures and specially designed longitudinal seam assist in protecting the contents, providing the sack is otherwise intact. For maximum effectiveness, IRT sacks must be filled within five months of the date of fabrication.
