DAIRY-TERG

DAIRY DETERGENT-SANITIZER

DIRECTIONS FOR USE

To prepare a standard cleaner-sanitizer solution for general dairy farm use dissolve 1 ounce (one measure) in 2 gallons of warm water.

Before Morning Milking:

1. Flush each milker unit with clean safe hot water and rinse other utensils.*

After Morning Milking:

1. Immediately draw at least one pailful of clean warm water through each unit.
2. Dismantle machine, including air hose, and immerse with other utensils in cleaner-sanitizer solution (1/2 ounce per gallon of water). Soak one-half hour if possible.
3. Brush all parts inside and out. Assemble milker.
4. Allow to dry without rinsing. Protect all equipment from contamination.

*NOTE: The hot water used for rinsing the utensils before milking can then be used for cleaning the udders by adding 1/2 ounce of cleaner-sanitizer per gallon of water. "Safe" means water of drinking quality.

ACTIVE INGREDIENTS:

Sodium carbonate monohydrate and n-alkyl (C14, C12, C16) dimethyl benzyl ammonium chlorides

40%

INERT INGREDIENTS:

Sodium tripolyphosphate and octyl phenoxy polyethoxy ethanol, water

60%

CAUTION
KEEP OUT OF REACH OF CHILDREN.
SEE CAUTION ON SIDE PANEL.

U.S.D.A. REG. NO. 1074-24

HANCO MANUFACTURING CO.
MEMPHIS, TENNESSEE

Before Night Milking:

1. Flush each milker unit with clean safe hot water and rinse other utensils.*

After Night Milking:

1. Rinse milker and other utensils with warm water.
2. Flush milker with cleaner-sanitizer solution. (1/2 ounce per gallon of water).
3. Wash other utensils.
4. Allow to dry without rinsing. Protect all equipment from contamination.

CAUTION

Avoid contamination of food. Harmful if swallowed. Keep out of eyes. In case of contact, flush with plenty of water. Dilute as directed. Do not mix with soap or anionic detergents. Avoid getting the concentrate on skin. If irritation persists, get medical attention.

Use DAIRI-TERG Detergent-Sanitizer for cleaning and sanitizing milking machines and utensils, and for washing cow's udders. This product reduces cleaning time to a minimum by combining cleaning and sanitizing in one operation. The daily use of DAIRI-TERG will aid in the production of cleaner milk with low bacteria counts.
