SO-PRO-CO

ALGAECIDE

CONCENTRATED

SLURRY FOR INDUSTRIAL RE-CIRCULATING WATER COOLING SYSTEMS

ACTIVE INGREDIENTS:

n-Alkyl (60% C ₁₂ , 30% C ₁₆ , 5% C ₁₈ , 5% C ₈)	...	5%
dimethyl benzyl ammonium chlorides	...	5%
n-Alkyl (50% C ₁₂ , 30% C ₁₆ , 17% C ₁₈ , 3% C ₈)	...	5%
dimethyl ethylbenzyl ammonium chlorides	...	5%

INACTIVE INGREDIENTS 90%
 100%

DIRECTIONS

Initial Dose: 1 - 2 gallons of Algaecide to 5,000 gallons of water.

Follow Up Dose: 1 - 3 quarts of Algaecide to 5,000 gallons of water every 7 days or sooner should visible growth appear.

For best results, rid system of organic debris if possible. If soap or anionic detergent is used rinse thoroughly before charging with Algaecide.

Do not be alarmed with the sudden appearance of a considerable amount of organic debris in the system during the first week of operation. This is normal and is a good indication the Algaecide has effectively penetrated and dislodged dead organic material which tenaciously adheres to metal and wooden surfaces as living matter.

When Algaecide is used as directed, it will aid in controlling and/or preventing the development of unsanitary slime conditions which are unsightly, produce foul odors and which are often the cause of equipment breakdowns. Use Algaecide in circulating water systems and water cooling towers.

Algaecide is non-toxic and non-irritating in use dilutions.

Algaecide is compatible with virtually all corrosion inhibitors and additives but should not be used in the presence of soap or other anionic detergents.

CAUTION

Danger if swallowed From container

Algaecide concentrate is dangerous if swallowed. Avoid contact with skin and eyes. In case of contact flush with plenty of water. Avoid contamination of food.

CAUTION

KEEP OUT OF REACH OF CHILDREN
SEE CAUTION STATEMENT ON SIDE PANEL

USDA Reg No. 7014-C

DANGER

KEEP OUT OF REACH OF CHILDREN. CORROSIVE.

Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink **PROMPTLY** a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

NOTE TO PHYSICIAN

Probably mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
