IRT SHIPPING SACKS

Chase Bag Company
2 Greenwich Plaza
Greenwich, Connecticut 06830

Active Ingredients

| | |
|--|---------|
| Pyrethrins | .033% |
| *Piperonyl Butoxide | .33 % |
| *(butylcarbityl) (6-propylpiperonyl) ether | |
| Related Compounds | .046% |
| <u>Inert Ingredients</u> | 99.591% |

Active ingredients above indicates residue after 5 months storage of IRT Sacks originally treated with 50 ± 10 mg/sq. ft. piperonyl butoxide, and 5 ± 1 mg/sq. ft. pyrethrins on the outer surface of the outer ply of basis weight 60 lb. per 3,000 sq. ft. ream. Treatment increases resistance to penetration by insects for a period of 9 to 12 months under normal shipping, handling and storage conditions. Tight end closures and specially designed longitudinal seam assist in protecting the contents, providing the sack is otherwise intact. For maximum effectiveness, IRT sacks must be filled within 5 months of the date of fabrication.

Number of sacks and weight of contents _____

of _____ sacks.

Date of Sack Fabrication _____
