# WEST VIRGINIA PULP AND PAPER

299 Park Avenue  
New York, New York 10017

---

---

Based on Outer Ply of Sack

**Active Ingredients:**

\*Piperonyl Butoxide Technical ..... 0.33%  
Pyrethrins ..... 0.033%

**Inert Ingredients:**

Kraft Paper  
Starch  
Clay ..... 99.637%  
100.000%

\*Equivalent to .264% (Butylcarbityl) (6-propylpiperonyl) ether  
and .066% related compounds.

Active ingredients above indicate residue after 5 months storage of IRT Sacks originally treated with 50 plus or minus 10 mg/sq. ft. piperonyl butoxide technical, and 5 plus or minus 1 mg/sq. ft. pyrethrins on the outer surface of the outer ply of basis weight 60 lb. per 3,000 sq. ft. ream. Treatment increases resistance to penetration by insects for a period of 9 to 12 months under normal shipping, handling, and storage conditions. Tight end closures and specially designed longitudinal seam assist in protecting the contents, providing the sack is otherwise intact. For maximum effectiveness, IRT sacks must be filled within five months of the date of fabrication.
