PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION**

Harmful or fatal if swallowed or absorbed through skin. Causes eye and skin irritation. Do not breathe vapors or mist. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling.

**STATEMENT OF PRACTICAL TREATMENT**

IF SWALLOWED: Call a physician or poison control center immediately. Do not induce vomiting.

IF ON SKIN: Remove contaminated clothing and launder before re-use. Wash skin with soap and water.

IF IN EYES: Flush eyes and under eyelids with water for at least 15 minutes, and obtain medical attention.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish, birds, and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply to areas where the roots of desirable plants will come into contact, as injury may result. Avoid spray drift to susceptible plants. Do not apply when conditions favor drift from area treated. Coarse sprays are less likely to drift. Vapors from this product may injure susceptible plants in the immediate vicinity. Avoid contamination of water used for domestic or irrigation purposes. Do not store near foodstuffs.

**PHYSICAL AND CHEMICAL HAZARDS**

Contains petroleum distillate. Do not store or use near heat or open flame.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its label.

NET CONTENTS:

**NON-SELECTIVE  
HERBICIDE #1**

**ACTIVE INGREDIENTS:**

Isooctyl ester of 2,4-dichlorophenoxy- acetic acid*	1.10%
Bromacil (5-Bromo-3-sec-butyl- 6-methyluracil)	0.61%
INERT INGREDIENTS	98.29%
TOTAL	100.00%

Contains 0.63% 2,4-acid equivalent.

\*Isomer specific by AOAC Method No. 6, DO 1-5.

EPA Reg. No. 10088-2

EPA Est. No. 10088-WI-1

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

See side panel for additional precautionary statements.

Manufactured by:

ATHEA LABORATORIES, INC.  
Milwaukee, WI 53223

This is a specially formulated, non-selective herbicide for controlling a wide range of annual and perennial weeds and grasses. It is recommended for use only on non-cropland areas such as railroad rights-of-way, fence rows, parking lots, around buildings, loading ramps, storage yards, tank farms and industrial sites. The degree of control and duration of results depends on the amount of herbicide applied, soil type, rainfall and other conditions. This product is also highly recommended for municipal weed control and as a semi soil sterilant.

To control most weeds and grasses on non-cropland areas for an extended time, apply 43.5 gallons per acre of undiluted weed killer after the most predominant weeds have emerged. No agitation is required. This herbicide should be applied with standard spraying equipment. For treating small areas, a tank type sprayer or sprinkling can may be used.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Keep container tightly closed when not in use. If container is damaged or product has leaked, contain spill. Soak up spilled material with sand or inert absorbent, and place in closed, labeled container for proper disposal.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If wastes cannot be disposed of by use according to label instructions, contact your state pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA Regional office for guidance.

ACCEPTED

NOV 19 1990

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act,  
this pesticide has been found to  
be in compliance with  
EPA Reg. No. 10088-2
