REC- 70PD1

97 JAN 21 P2 01

PRECAUTIONARY STATEMENTS:
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful or fatal if swallowed or absorbed through skin. Causes eye irritation. Causes skin irritation. Do not breathe vapors or mist. Do not get in eyes, on skin, or on clothing. When mixing, loading or applying this product or repairing or cleaning equipment used with this product, wear eye protection (face shield or safety glasses), long-sleeved shirt, long pants, socks, shoes and chemical-resistant gloves. Wash hands, face and arms with soap and water as soon as possible after mixing, loading or applying this product. Wash hands, face and arms with soap and water before, eating, smoking or drinking. Wash hands and arms before using toilet. After work, remove all clothing and shower using soap and water. Do not re-use clothing worn during the previous day's mixing and loading or application of this product without cleaning first. Clothing must be kept and washed separately from other household laundry. Remove saturated clothing as soon as possible and shower.

The maximum number of broadcast applications per treatment site is 2 per year. Do not allow people (other than applicator) or pets on treatment areas during application. Do not enter treatment areas until spray has dried or dust has settled.

If this container is over one gallon and less than five gallons, the person engaged in open pouring of this product must also wear coveralls or a chemical-resistant apron. If this container is five gallons or more in capacity, then a mechanical system (probe and pump) must be used for transferring the contents of this container. If the contents of a non-refillable pesticide container are emptied, the probe must be rinsed before removal.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or poison control center immediately. Do NOT induce vomiting.
IF ON SKIN: Remove contaminated clothing and launder before re-use. Wash skin with soap and water.
IF IN EYES: Flush eyes and under eyelids with water for least 15 minutes, and obtain medical attention.

ENVIRONMENTAL HAZARDS

This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect aquatic invertebrates and nontarget plants. Do not apply directly to water when disposing of equipment wash water. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply when weather conditions favor drift. Vapors from this product may injure susceptible plants in the immediate vicinity. Coarse sprays are less likely to drift. Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D pesticides at such sites to prevent contamination of groundwater supplies. Use of a closed system for mixing or transferring this product will reduce the probability of spills. Placement of mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

PHYSICAL OR CHEMICAL HAZARDS

Contains petroleum distillate. Do not use or store near heat or open flame.

NON-SELECTIVE HERBICIDE #1

ACTIVE INGREDIENTS:

Isooctyl (2-ethylhexyl) Ester of
2,4-dichlorophenoxyacetic acid 1.10%
Bromacil (5-Bromo-3-sec-butyl-6-methyluracil) 0.61%
INERT INGREDIENTS 98.29%
TOTAL 100.00%
2,4-dichlorophenoxyacetic acid equivalent 0.63%
Isomer specific AOAC Method No. 6, DO 1-5.

EPA REG. NO. 10088-2-
EPA EST. NO. 10088-WI-1

KEEP OUT OF REACH OF CHILDREN

CAUTION

See side panel for further precautionary statements.

SPECIMEN

LABEL

ACCEPTED

MAR 26 1997

Under the Federal Insecticide,
Fungicide, and Rodenticide Act,
as amended, for the pesticide
registered under
EPA Reg. No. 10088-2

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label.

This is a specially formulated, non-selective herbicide for controlling a wide variety of annual and perennial weeds and grasses. It is recommended for use only on non-cropland areas such as railroad rights-of-way, fence rows, parking lots, around buildings, loading ramps, storage yards, tank farms and industrial sites. The degree of control and duration of results depends on the amount of herbicide applied, soil type, rainfall and other conditions. This product is also highly recommended for municipal weed control and as a semi soil sterilant.

To control most weeds and grasses on non-cropland areas for an extending time, apply 1 gallon per 1000 square feet (43.5 gallons per acre) of undiluted weed killer after the most predominant weeds have emerged. No agitation is required. This herbicide should be applied with standard spraying equipment. For treating small areas, a tank type sprayer or sprinkling can may be used.

STORAGE AND DISPOSAL

Do not contaminate water, food, feed, or fertilizer by storage or disposal. Keep container tightly closed when not in use. If container is damaged or leaking, contain spill. Soak up spilled material with absorbent and place in closed, labeled container for proper disposal.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law and may contaminate groundwater. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA regional office for guidance.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
