UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

JUN 30 2003

OFFICE OF PREVENTION, PESTICIDES  
AND TOXIC SUBSTANCES

Mr. Troy Munson  
Athea Laboratories, Inc.  
P. O. Box 240014  
Milwaukee, WI 53224

Dear Mr. Munson:

Subject: First Aid Revisions Per PR Notice 2001-1  
Non-Selective Herbicide #1  
Registration No. 10088-2  
Selective Herbicide #3  
Registration No. 10088-5  
Your Submission Dated May 15, 2003

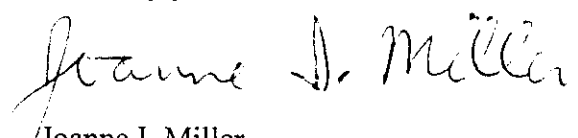

The labeling referred to above, associated with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable, **provided** the following revisions are made:

1. In the First Aid Statements section of your labels, place the statement, "FIRST AID:", on a separate line following CAUTION to serve as information heading and separate from "IF SWALLOWED:",
2. Also, add appropriate telephone number to replace, "...call 1-800-XXX-XXXX", in the last sentence of this section on both products labeling.

In addition, this label is accepted with the following stipulation. The Agency has accepted the labeling changes that are necessary to comply with the first aid labeling requirements described in PR Notice 2001-1. **Any other labeling changes submitted in connection with this amendment application but not directly related to compliance with the first aid revisions**

**have not been reviewed or accepted by the Agency.** If you wish to make such changes, you must submit a separate amendment application proposing them. If your product is currently suspended, the acceptance of this labeling amendment does not affect the suspension in any way. A stamped copy of the label is enclosed for your records. Please submit one copy of the final printed label, **incorporating the revisions noted** above, before you release the product for shipment.

Sincerely yours,

Joanne I. Miller  
Product Manager 23  
Herbicide Branch  
Registration Division (7505C)

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
CAUTION**

May cause skin irritation. Do not get in eyes or on clothing. Avoid contact with skin. Harmful if swallowed. Avoid breathing vapors or spray mist. When mixing, loading or applying this product or repairing or cleaning equipment used with this product, wear eye protection (face shield or safety glasses), long-sleeved shirt, long pants, socks, shoes, and chemical resistant gloves. Wash hands, face and arms with soap and water as soon as possible after mixing, loading or applying this product. Wash hands, face and arms with soap and water before eating, smoking or drinking. Wash hands and arms before using the toilet. After work, remove all clothing and shower using soap and water. Do not re-use clothing worn during the previous days mixing and loading or application of this product without cleaning first. Clothing must be kept and washed separately from other household laundry. Remove saturated clothing as soon as possible and shower. The maximum number of broadcast applications per treatment site is 2 per year. If this container is over one gallon and less than five gallons, the person engaged in open pouring of this product must also wear coveralls or a chemical-resistant apron. If this container is five gallons or more in capacity, then a mechanical system (probe and pump) must be used for transferring the contents of this container. If the contents of a non-refillable pesticide container are emptied, the probe must be rinsed before removal.

**ENVIRONMENTAL HAZARDS**

This product is toxic to aquatic invertebrates. Drift or runoff may adversely affect non-target plants. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water supply when disposing of equipment wash water. Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D pesticides at such sites to prevent contamination of groundwater supplies. Use of closed system for mixing or transferring this product will reduce the probability of spills. Placement of mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination. Spray equipment should be thoroughly cleaned before using for any other purpose. This product will kill or seriously injure desirable forms of vegetation. Do not apply directly to ornamentals, flowers, fruits, vegetables, grapes, cotton, tobacco, carpet grass, St. Augustine grass or other desirable plants. Do not use when there is a hazard from drifting spray mist. Coarse sprays are less likely to drift. Vapors may injure susceptible plants in the immediate vicinity.

**PHYSICAL OR CHEMICAL HAZARDS**

Do not use or store near heat or open flame.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed or storage, disposal or cleaning of equipment. Do not store near heat or open flame. Store above 32°F. If product freezes, mix thoroughly before using. This does not alter the product. Keep container tightly closed when not in use. If container is damaged or leaking, contain spill. Soak up spilled material with absorbent and place in closed, labeled container for proper disposal.

**PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticide spray mixture or concentrate is a violation of Federal law and may contaminate groundwater. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or Hazardous Waste representative at the nearest EPA regional office for guidance.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**SELECTIVE  
HERBICIDE #3**

**BROADLEAF WEED KILLER**

**ACTIVE INGREDIENTS:**

Dimethylamine 2,4-Dichlorophenoxyacetic Acid . . . . . 12.30%

Trisopropanolamine 2,4-Dichlorophenoxyacetic Acid . . . 19.07%

**INERT INGREDIENTS:** . . . . . 68.63%

**TOTAL:** . . . . . 100.00%

2,4-dichlorophenoxyacetic acid equivalent 20.1% (1.9 pounds per gallon).

Isomer specific by AOAC method 6.00 1-5.

**KEEP OUT OF REACH OF CHILDREN  
CAUTION**

**FIRST AID: IF SWALLOWED:** Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

**IF INHALED:** Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For information on this pesticide (including health concerns, medical emergencies, or pesticide incidents), call the National Pesticide Information Center at 1-800-858-7378. For information on product, usage, etc., call 1-800-XXX-XXXX.

**CONTROLS THE FOLLOWING WEEDS**

Aspens	Fanweed	Poison Ivy
Bitter Sneezeweed	False Strawberry	Poison Oak
Bitterweed	Ground Ivy	Prickly Lettuce
Brambles	Heal All	Ragweed
Broomweed	Henbit	Sassafras
Burdock	Honeysuckle	Sheepsorrel
Buttercups	Jimsonweed	Shepherds Purse
Chervil	Knotweed	Speedwell
Chickweed	Kochia	Spotted Spurge
Chickory	Lambsquarters	Sumac
Chokecherry	Locust	Sunflower
Clovers	Maples	Thistles
Cocklebur	Mustard	Vetch
Coffeeweed	Oaks	Wild Carrot
Cottonwood	Oxalis	Wild Onion
Croton	Pennyworts	Wild Radish
Dandelion	Peppergrass	Wild Roses
Docks	Pigweed	Willows
Elms	Plantains	Yarrow
Evening Primrose	Plums	Yellow Rocket

AND MANY OTHERS!

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its label.

**LAWN AND TURF:** To control dandelions, chickweed, plantains, Japanese clover, oxalis, wild onions and certain other weeds, dilute 2 quarts of this product with 200 gallons of water to treat one acre. Keep spray tank agitated during application. Wet foliage thoroughly with spray solution. Do not apply during the heat of day. If grass begins to yellow, water thoroughly and fertilize. Do not apply to grass less than 4 months old. Temporary burning or yellowing may occur to Bent and Fescue grasses. Do not use on clover, Dichondra or Lippia lawns. To control Oxalis, repeated treatments maybe necessary. For best control of wild onions, treat while young and before bulbs are formed - usually in late fall or early spring. Do not apply through any type of irrigation system.

**TO TREAT SMALL AREAS:** Mix 1-1/2 ounces of this product in 4-1/2 gallons of water to treat 1000 square feet.

**TO CONTROL DOCKS, THISTLES, MORNING GLORY ALONG FENCE ROWS AND RIGHTS OF WAYS:** Mix 1 gallon of this product in 100 gallons of water to treat 1 acre. Wet plants thoroughly and repeat when necessary.

**FOR WOODY PLANTS SUCH AS POISON OAK, BRAMBLES, POISON IVY, SUMAC, HONEYSUCKLE:** Mix 8 ounces of this product per gallon of water and drench thoroughly while plants area in full leaf. Repeat application in four weeks if necessary.

**TO KILL STUMPS:** Mix 1 pint of this product in one quart of kerosene or diesel oil. Spray all of the stump area thoroughly. 0360.051403
