**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

WARNING

Causes severe eye and skin irritation. Do not get in eyes or on skin or clothing. Harmful if swallowed. Avoid contamination of food.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. For guidance contact your State Water Board or Regional Office of the EPA.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Store in a dry place no lower in temperature than 50°F or higher than 120°F.
CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill or incineration, or if allowed by local authorities, by burning. If burned, stay out of smoke.
PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**KEEP OUT OF REACH OF CHILDREN
WARNING**

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush eyes and under eyelids with plenty of water for at least 15 minutes. Call a physician immediately.
IF ON SKIN: Remove contaminated clothing and launder before re-use. Flush skin with plenty of water for at least 15 minutes.
IF SWALLOWED: Give person milk, egg whites or gelatin solution, or if these are not available drink large amounts of water. Call a physician immediately. Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed. See side panel for additional precautionary statements.

CLEANS, RESTORES, AND SAFEGUARDS FLOORS

MAKES FLOORS MORE CONDUCTIVE

SANITIZES AND DEODORIZES AS IT DISINFECTS

The economical way to clean, disinfect, deodorize and delime the following types of surfaces: floors (including terrazzo, ceramic, asphalt tile, rubber, vinyl, linoleum, magnesite, concrete, etc.), painted, enameled, varnished and lacquered surfaces, including walls, woodwork, cabinets, refrigerators, display cases, and fixtures. Cleans more rapidly and surface stays cleaner longer. May be used even in hard water. Removes soap scum and alkaline salts. Eliminates odors quickly because of fixation and destruction of many bacteria at the source.

LEAVES NO AFTER ODOR!

This product is guaranteed to have a Phenol Coefficient of 25 when tested against antibiotic resistant strains of Staphylococcus aureus Phage Type 80, and a Phenol Coefficient of 15 against S. typhosa.

TO DISINFECT: After surface has been thoroughly cleaned, use 2 ounces to each gallon of water for non-porous surfaces and at least 4 ounces to each gallon of water for porous surfaces.

TO DEODORIZE AND SANITIZE: Use 1 1/2 ounces to 2 gallons of water. Germicidal activity will be impaired with soap or other detergents.

For floors, use 4 ounces per gallon of lukewarm water and mop or scrub in usual manner. At this dilution it will clean a waxed floor without removing the wax. For walls, furniture, fixtures, and other varnished, waxed, or enameled surfaces, use 3 ounces per gallon of warm water.
