## SWIMMING POOL ALGAEICIDE

KEEPS POOL WATER CLEAR AND FREE OF VISIBLE ALGAE

REDUCES CHLORINE DEMAND

CONTROLS ALGAE SLIME IN BOTH SWIMMING POOLS AND OUTSIDE SPA/WHIRLPOOL/HOT TUB BATHS.

DISINFECTS/SANITIZES POOL SIDE SURFACES

**ACTIVE INGREDIENTS:**

- n-Alkyl(80% C<sub>14</sub>, 30% C<sub>16</sub>, 5% C<sub>12</sub>, 5% C<sub>18</sub>) dimethyl benzyl ammonium chloride.....5.0%
- n-Alkyl(88% C<sub>12</sub>, 32% C<sub>14</sub>) dimethyl ethylbenzyl ammonium chloride.....5.0%
- INERT INGREDIENTS.....90.0%
- TOTAL 100.0%**

EPA Reg. No. 10088-23  
 EPA Est. No. 10088-WI-1

## KEEP OUT OF REACH OF CHILDREN DANGER

See side panel for additional precautionary statements.

Sold By:

ATHEA LABORATORIES  
 Milwaukee, WI 53223

When used as directed this product will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium inundatum* (black algae), *Phormidium retzii* (Square D Algae), *Lyngbya versicolor* (blue-green) algae and other swimming pool algae.

It is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other water-treating chemicals. It works best when added by itself directly to pool water.

**FOR USE IN SWIMMING POOLS:**

**Initial dose:** 1 gallon to 50,000 gallons of pool water. Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.  
**Maintenance dose:** 1 quart to 50,000 gallons of pool water. Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart for each 10,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

**FOR USE IN SPAS/WHIRLPOOLS/HOT TUB BATHS:**

**Initial dose:** Add 12.8 ounces per 5,000 gallons of water. Initial dose is used upon filling of spa/whirlpool/hot tub baths.  
**Maintenance dose:** Add 3.2 ounces per 5,000 gallons of water. Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or spa/whirlpool/hot tub bath has unusually heavy use, add maintenance dose more frequently. Drain and clean spa/whirlpool/hot tub bath at least once a month or as needed depending on bather load.

**FOR USE AS A POOL-SIDE SURFACE GERMICIDE:**

After cleaning surfaces, use 1 oz. to 4 gallons of water for sanitizing or 1 oz. to 2 gallons of water for disinfecting. Thoroughly wet all treated surfaces. At these dilutions this product will also deodorize surfaces efficiently.

Net Contents:

**PRECAUTIONARY STATEMENTS**  
 Hazards to humans and domestic animals.

**DANGER**

Causes severe eye and skin damage. Do not get in eyes or on skin or clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

**STATEMENT OF PRACTICAL TREATMENT**

**If in eyes:** Flush eyes and under eyelids with plenty of water for at least 15 minutes. Call a physician immediately.

**If on skin:** Remove contaminated clothing and launder before re-use. Flush skin with plenty of water for at least 15 minutes.

**If swallowed:** Drink milk, egg whites, or gelatin solution, or if these are not available drink large amounts of water. Call a physician immediately.

**Note to physician:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its label.

**STORAGE AND DISPOSAL**

Do not contaminate water, food or feed by storage or disposal.

**STORAGE:** Store in a dry place no lower in temperature than 50°F or higher than 120°F.

**CONTAINER DISPOSAL:** Do not reuse empty container. Triple rinse empty container with water, then offer for reconditioning or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities. Plastic containers may be disposed of in a sanitary landfill, incinerated, or if allowed by local authorities, by burning. If burned, stay out of smoke.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions contact your state pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional office for guidance.
