# LIQUID WEED KILLER

## ACTIVE INGREDIENTS

Mixed Aliphatic Hydrocarbons.....	97.72%
2,4-Dichlorophenoxyacetic Acid, isooctyl ester* .....	1.09%
Bromacil (5-Bromo-3sec-butyl- 6-methyluracil) .....	0.98%
INERT INGREDIENTS .....	0.21%
TOTAL .....	100.00%

\*2,4-Dichlorophenoxyacetic acid equivalent...0.70%

EPA Reg. No. 10088-27  
EPA Est. No. 10088-WI-1

KEEP OUT OF REACH OF CHILDREN

## CAUTION

See side panel for additional precautionary statements

### STATEMENT OF PRACTICAL TREATMENT:

- If swallowed: Call a physician or poison control center immediately. Do not induce vomiting.
- If on skin: Remove contaminated clothing and launder before re-use. Wash skin with soap and water.
- If in eyes: Flush eyes and under eyelids with water for at least 15 minutes, and obtain medical attention.

SOLD BY:

ATHEA LABORATORIES  
Milwaukee, WI 53223

This product is a liquid, non-selective, persistent, general herbicide designed for use where control of all vegetation is desired. It is recommended for non-crop areas such as fence rows, parking lots, around buildings, loading ramps, storage yards, tank farms, along pipelines, industrial plant sites and other similar areas where grasses and weeds interfere with drainage, create a fire hazard or cause unsightly appearance. This liquid produces rapid top kill of all succulent vegetation. Translocation and root absorption of component herbicides produce extensive root kill of weeds and provide long-term residual control.

This liquid may be applied at any time of the year except when the ground is frozen. Best results are obtained after predominant weeds have emerged and developed to a point where they present a problem. The product should be applied as is. No agitation or dilution is necessary and any equipment from sprinkler can to complicated sprayer may be used. Equipment should be calibrated so as to assure application of the recommended amount of material.

To control most weeds and grasses on non-crop-land areas for an extended time, apply 43.5 gallons per acre (1 gal./1000 sq. ft.) of undiluted weed killer after the most predominant weeds have emerged. No agitation is required. Weed Killer should be applied with railroad on-track, truck mounted, or other standard spraying equipment. For treating small areas, a tank-type hand sprayer or sprinkling can may be used.

### IMPORTANT

Do not apply Weed Killer directly to, or permit it to come into contact with susceptible plants such as vegetables, flowers, fruit trees, ornamentals, cotton, beans, peas, grapes or other desirable plants. Avoid spray drifts to such susceptible plants. (Coarse sprays are less likely to drift.) Thoroughly clean spray equipment with a suitable chemical cleaner before using for other purposes (or do not use same spray equipment for other purposes).

### PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

## CAUTION

Harmful or fatal if swallowed or absorbed through skin. Causes eye irritation. Do not breathe vapors or mist. May cause skin irritation. Do not get in eyes, on skin, or on clothing. Wash thoroughly after handling.

### ENVIRONMENTAL HAZARDS

This product is toxic to fish, birds, and other wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes. Do not apply to areas where roots of desirable plants will come into contact, as injury may result. Avoid spray drift to susceptible plants. Do not apply when conditions favor drift from area treated. Coarse sprays are less likely to drift. Vapors from this product may injure susceptible plants in the immediate vicinity. Avoid contamination of water used for domestic or irrigation purposes. Do not store near foodstuffs.

### PHYSICAL AND CHEMICAL HAZARDS

Contains petroleum distillate. Do not store or use near heat or open flame.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its label.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Keep container tightly closed when not in use. If container is damaged or product has leaked, contain all spillage. Soak up spilled material with sand or other inert absorbent, and place in closed, labeled container for proper disposal. **CONTAINER DISPOSAL:** Do not reuse empty container. Triple rinse empty container with water, then offer for reconditioning or puncture and dispose of in a sanitary landfill or by other procedures approved by state and local authorities. **PESTICIDE DISPOSAL:** Pesticide wastes are hazardous. Improper disposal of excess pesticide spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions contact your state pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional office for guidance.
